ESTABLISHED 1833. TUESDAY, JULY 6, 1897. PRICE TWO CENTS.

A jaunty poster girl adorns the cover of the July issue of "Fashions." The contents of the number present a rare combination of pictorial beauty, fine literary tone, and succinct descriptions of the fashions prevailing in the American metropolis and in those standards of taste in wearing apparel, London, Paris and Vienna. The designs are especially chic, and the contents, as always, the original work of original writers.

The opening article is a particularly valuable one by that matriarch among American women, Mrs. Mary A. Livermore, on "The Solidarity of our Social Life." Maria Louise Pool contributes a bit of graceful fiction. An article full of helpful suggestions is "Rest, and How to Take it Most Beneficially." Mary Gay Humphreys, Helen Marshall North, and other well known writers deal with topics of general interest.

Taken column for column it may be said that "Fashions" has no equal in the field it purposes to cover.

...AN HOUR OF RECREATION...

Will do more toward brightening up dull minds and smoothing out irritable tempers than all the medicine in the world. There is no form of recreation more profitable, healthful and enjoyable than music—of any sort. It brings refinement and polish in its wake. It will keep the boys home night, and make the girls cheerful and contented.

You have the desire for music—we have the desire to get rid of it—it takes two to make a bargain. We will wait for your money, or take it all at once.

THE GREAT STRIKE.

Ratchford Takes an Encouraging View of the Situation.

Committees Out Securing Funds to Aid the Strikers to Carry on the Warfare.

COLUMBUS, Ohio, July 6.—President Ratchford, of the United Mine Works, is greatly pleased with the progress of the present strike and regards the outlook as exceedingly bright. An encouraging report was received from the Pittsburg district this morning, which stated that, with the exception of the mine of the New York and Cleveland Gas Coal company and one or two mines where the miners are under contract, all were out. It is stated that District President Dolan, of the Pittsburg, expects the miners employed by the New York and Cleveland Gas Coal company to join the suspension in a day or two.

It is thought that when the miners of the above mentioned company quit work it will have the effect of bringing the miners of the other one or two mines out, regardless of the contracts which they may be under. This will make the suspension complete in the Pittsburg district. The Pittsburg district is the only one that a report has yet been received from the national headquarters in this city. Nothing had been heard from West Virginia by the national officers this morning, but a report was expected from that section some time during the day.

In regard to legislation for the benefit of the miners and working men President Ratchford said:

"National legislation looking to the establishment of a shorter eight hour work day and the enactment of a minimum wage law, as well as national arbitration for the settlement of future difficulties, may be expected. This, however, will depend upon ourselves. If our miners content themselves with their lot, if they are satisfied to live in slavery, our national congress will offer but little objection. It is to be hoped every man in this country will lay down his pick and thereby do his part to bring about a better system for himself and his posterity.

"In summing up the whole situation I am well pleased and feel really confident of the outcome. Our miners have an opportunity at this time which they have never had before. They must take advantage of it. They may never have it again.

"The press, the pulpit and the people are almost united in their support. Offers of assistance have come from state and national unions. The labor league of Pennsylvania, which is a strong and powerful organization, at a meeting held in Pittsburg on Sunday last, resolved to sustain the miners and give them material aid, if it be required. With all of those influnces and many others that might be enumerated the future of the mining industry will occupy a higher plane and at least the necessaries of life will be ensured to these dependent on that branch of industry."

Mr. Brenholz, who manages the home office of the General Hocking Coal company, says there is at least 160,000 tons of coal in storeage in the northwest. He estimates that this will supply all demands for at least four months, no matter how general the strike becomes. There is considerable coal on the Ohio docks ready for shipment by lake, but this coal will not be sent west. It will be held for the purpose of supplying transient trade. With respect to a supply for the railroads, it is estimated that the different companies have enough coal on hand to last them about six weeks.

Monday's Dispatch contained telegrams from the valley showing that the miners were not in good financial shape, owing to the fact that they have not had much work for months back. Messrs. Adam Pallam, Asa Stevenson, Benj. Nichols and J. C. Call, miners of Oakdale, Athen county, are in the city for the purpose of making a canvass for a contribution to a fund to relieve the miners of any distress which the strike might cause. They have been here for a day or two, and make personal visits to the different shops and places of business in the central part of the town. They have divided the city into districts.

PITTSBURG, Pa., July 6.—The strike of the coal miners is on in the Pittsburg district, but reports as to its extent are so conflicting and meager that it is difficult to tell how many responded to the strike order. The miners' officials had not heard from one-fourth of the mines in the district at 1 o'clock, but they expressed themselves as confident that the order had been generally obeyed and that all the diggers would be out in a few days. The reports received say that all the mines on the Wheeling division of the Baltimore and Ohio railroad are idle. Among the mines shut down are those of the Pittsburg and Chicago and Gas Coal company.

The Osceola mines are also idle, as are those at Shaners. In the Panhandle district, the Champion mine is idle. The only report received of mines that are working in that district are from the Panhandle mine of M. A. Hanna & Co., and the Bendling Brothers. All the Banksville mines are idle, and but sixty men are at work in the Jumbo mines. The most encouraging reports for the strikers come from the river mines, and it can be stated that fully 6,000 river diggers are idle. But few mines are in operation, and the indications are that by Thursday every mine will be shut down. The miners are determined in their demands. The operators admit that the mines on the Wheeling division are idle today, but say it is due to the fact that this is a Slav holiday and that the men will be at work tomorrow.

A strong effort was made to bring out the men at the New York and Cleveland company's mines at Turtle Creek, Plum Creek and Sandy Creek, but it was not successful, as all the men went to work as usual, and say they will not join in the movement.

A dispatch from Wheeling, W. Va., says that the men at the Schick mines, on the Baltimore and Ohio railroad in Ohio are at work at the advance. The 3,000 miners on the Cleveland, Lorain and Wheeling railroad voted 2 to 1 against a strike and are at work as usual.

AGAINST SALOONS.

The People of Springfield Township Won't Have Them.

A Big Remonstrance Filed With the Commissioners--Perfection Manufacturing Co. Assigns.

The residents of Maysville and Springfield township are opposed to saloons and there has not been a saloon in Springfield since the Nicholson law went into effect. Some time ago Ralph W. Guenther published a notice that he would apply for a license to locate a saloon in Maysville. Citizens of that little village started out with a remonstrance and soon secured the signatures of more than half the resident voters of the township. This remonstrance was filed with the commissioners and today Guenther was to make application. He did not appear before the commissioners and it is believed that on learning of the remonstrance he decided not to make application.

There has been no licensed saloon in Cedar Creek township since the passage of the Nicholson law until today when the commissioners granted a license to Rudolph Schwartz. A remonstrance was circulated but not enough signatures were received.

MANUFACTORY ASSIGNS.

The Perfection Manufacturing company, whose factory is just south of the St. Mary's bridge, on Spy Run avenue, today assigned all its property to T. D. DeVilbiss in consideration of his meeting obligations aggregating $2,500. On August 7 the factory will be sold should such obligations not have been paid.

NOTES.

Marriage licenses have been granted to Nagib Farris and Julia Michael, Irving C. Hicks and Frances G. Rodeheaver and Martin Schenck and Elizabeth Fischer.

In the superior court John A. Klett, executor of the estate of John Klett, deceased, brings suit on mortgage against John Krock, et al. Demand, $2,500. Judge W. G. Colerick is plaintiff's attorney.

Judge Watkins has adjourned the hearing of the case of H. B. Claflin company vs. Louis Wolf, owing to the death of Judge Zollars' wife's mother.

The county commissioners and Peter Eggemann and City Civil Engineer Randall have returned from Chicago, where they consulted with Engineers Pierce and Richardson in regard to the tunnel. Certain changes have been practically agreed upon and now the tunnel is assured. Mr. Pierce will arrive in Fort Wayne tomorrow to look after some business for B. S. Tolan, who is at Mount Clemens.

NEGRO ELECTROCUTED.

A Colored Wife Murderer Pays the Penalty of His Crime.

SING SING, N. Y., July 6.—Henry Barker, colored, was electrocuted here today for wife murder. The crime was committed on August 30, 1895, just outside of White Plains. Barker was jealous of his wife and after being separated from her for some time returned on the date mentioned and shot her to death, afterwards hacking her body with a spade.

Richmond, Ind., was visited by refreshing rains last evening Such a visitation would be hailed with delight by our citizens, providing it is followed by cooler weather.

The Christian Endeavorers.

INDIANAPOLIS, Ind., July 6.—A special telegram from Omaha says: Wednesday, June 30th, Union Pacific ran 23 special trains, carrying 300 or more persons on each train. All trains arrived at destination on scheduled time, and Christian Endeavorers delighted with the service. Thursday, July 1st, 13 special trains, all arriving on scheduled time or better. Telegrams from Christian Endeavor managers in charge, thanking Union Pacific for splendid runs. Friday, July 2nd, at 2:00 p. m., 6 special trains. Indications are that Union Pacific is carrying 65 per cent. or more of Christian Endeavor business.

ALL IS READY

For the Big Christian Endeavor Convention.

Thousands of Visitors Dropping Into San Francisco Every Hour--The Big Concert Chorus.

SAN FRANCISCO, July 6.—All is now in readiness for the great Christian Endeavor convention. About 6,000 delegates will arrive today and twice as many more tomorrow. The baggage room of the ferry depot is crowded with trunks and valises. Last night there were thousands of pieces of baggage piled in great heaps, under the steel arches awaiting owners and there were many pieces in those piles that owners were looking for but could not find. About fifteen car loads of baggage are due to arrive today.

Tonight the great chorus, the concert chorus and boquet chorus will give their concert in the Mechanics Pavillion. These are the singers who are to furnish the music at all the Endeavor meetings and tonight they will be divided for future meetings, alloting the places of their appearance, and so singing simultaneously at different meetings.

The transformation wrought in the pavilion will be a surprise to the thousands who are familiar with its ordinary appearance. The seating arrangements have been entirely changed and the roof has been given a tent like appearance by white canvass covering, which hides completely from view the unsightly pillars and will prevent the dissipation of sound among the sharp ribs of the building. All around the concert are the booths of the different endeavor unions. The 1897 committee is now agitating the question inducing the shipping in the harbor to display flags and bunting during the convention. There is a probability that Lieutenant Governor Jeter will be on hand to welcome the endeavorers when they gather in the big concert hall Thursday.

Secretary Baer says the visitors will be more than pleased with the preparations for their reception and the hearty welcome that awaits them. The sixteenth international convention, he did not hesitate to declare, would eclipse all past conventions of the Christian Endeavor and would be a lasting monument to the generosity of the people on this far western shore.

Among the endeavorers who have come across the sea to attend the convention is Miss E. J. Newton, of Foo Chow, the representrtives of the endeavor societies in China. With her is Miss Carme Hostetter, who has come all the way from Tokio to be in attendance at the convention. Miss Newton has brought with her a silken banner to be presented to the Christian Endeavor society that donated the largest sum of money to the foreign missions. It is the gift of the Foo Chow Christian Endeavor union, whose greetings to the society were forwarded to General Secretary Baer by the secretary, Ling Muk, before they decided to send a delegation.

One of the most interesting features at the Mechanics Pavilion will be the reproduction of an early California mission which will constitute the headquarters of the missionary society, under the direction of Miss M. L. Berry, state superintendent of missions for the Christian Endeavor union.

The entrance to this interesting exhibit will be so fashioned as to represent exactly one of the oldest missions in the state. In the tower which rises at the northwest corner of this structure will be hung a bell taken from an old mission which has been reposing silent in the park museum. The bell is the property of the Mrs. William Garrett, and is loaned for the occasion. Five minutes before each session of the convention opens this bell will ring as it did 100 years ago to call the faithful to service.

IN MID AIR

Hung an Aeronaut and His Assistant.

Both Dropped to the Earth and Were Terribly Mangled--They May Die.

EUREKA, Cala., July 6.—Prof. Geo. Weston, the aeronaut and his assistant, H. S. Colton, of Aberdeen, Wash., were fearfully crushed while the former was attempting an ascension and parachute jump. When the balloon was inflated and the restraining ropes cast off, it shot up sixty feet with Colton entangled in the ropes. He was dropped to the earth and sustained fractures and bruises from which he will die. Weston clung to the parachute and a strong wind carried him with terrific force through the tops of some trees and he, too, dropped to the earth, crushing and mangling him in a terrible manner.

A Remarkably Heavy Child.

CHESTERFIELD, Ind., July 6.—There is a child here who is only four years old and weighs 109 pounds. He is a son of Samuel Allen, a farmer, three miles west of here. The boy is healthy and well developed and does not seem to suffer from his obesity. He is exceedingly bright for one of his years. His parents are only medium size.

Tore Down the Portuguese Flag.

MONTEREY, Cal., July 6.—A disturbance was created here over the display of a Portuguese flag beside the American ensign instead of below it over Ortin's grocery store. Patriotic citizens took down the Portuguese flag, but finding it again removed it and burned it. Ortin has complained to the Portuguese government.

NOT "SUCH A MUCH."

United States Special Embassy Did Not Cost $8,000.

State Department Allowed Only $3,000 and One-Quarter of It Only Was Used.

LONDON, July 6.—It has been erroneously reported from America that the expenses of the United States special embassy at the queen's jubilee were 8,000 pounds. The United States department only allowed 2,000 pounds for the expenses and probably not a quarter of this amount has been used, as Mr. Reid, the United States special envoy, and his secretaries, are paying their own expenses. Mr. Reid goes to Windsor this afternoon on the queen's invitation and will dine and sleep at Windsor castle. United States Ambassador Hay will give a dinner tonight at his residence on Careleton house terrace in honor of the United States monetary commission.

The following guests will be present: Senator Edward O. Wolcott, of Colorado, and Mrs. Wolcott; Former Vice President Adlae E. Stevenson, of Ill., and Mrs. Stevenson; Gen. Charles Jackson Pain, of Mass.; Sir Micheal Hicks-Beach, the chancellor of the exchequer, and Lady Hicks-Beach; George J. Goschen, the first lord of the admiralty, and Mrs. Goschen; Lord and Lady Rothschild, Mr. and Mrs. W. H. Grenfell and Mr. and Mrs. George N. Curzon; Lord and Lady Tweedmouth, the Earl and Countess Erroll, Mr. and Mrs. John W. Foster, and Sir Julian Pauncefote, the British ambassador to the United States, and Lady Pauncefote.

LOCAL LINES.

Mr. and Mrs. D. L. Harding and Mr. and Mrs. Robert Harding have returned from Rome City.

Dell Locke, of the Burt House, Decatur, Ind., took in the Fourth of July festivities at Robison park.

A very important meeting of the official board of the West Jefferson Street Church of Christ will be held at the church tonight.

W. C. Cassady, an attorney of Lenoir, Tenn., is visiting the parents of his wife, Mr. and Mrs. Martin Kramer. Mrs. Cassady has been here several weeks, and will remain during the summer.

F. P. Vasen, formerly a resident of Fort Wayne, but now of Chicago, is in the city today enroute home from Defiance, where he and his family spent the Fourth, the guest's of his wife's parents.

John Warner, sr., of Hillsdale, Mich., who was visiting his son, John, at 284 West Main street, returned home today. John Warner, jr., has been quite ill, but is now on the mend. As soon as he is able to travel he expects to go to Hillsdale to remain until his health is fully restored.

The Emannel's congregation had a picnic at Swituey park yesterday and it was attended by a large number from the city and country. The Wayne Tent band discoursed good music during the day and in the evening gave a delightful concert, the leading feature of which was "The Indian War Dance."

The Sons of St. George held a picnic on the Luke Darnell farm, four miles southwest of the city yesterday. The party was well supplied with edibles and had dinner and supper in the grove. The intervening hours were spent in various amusements, not the least of which were the songs rendered by Messrs. John Slater, William Geake and Joseph Slater. A cricket game between the married and the single members of the society resulted in victory for the benedicts.

STAR POINTER

Wins an Easy Victory Over John R. Gentry.

The Largest Crowd That Ever Saw a Race at Classic Charter Oak Park.

HARKFORD, Conn., July 6.—The largest crowd that ever assembled at Chester Oak park and the largest attendance at any light harness racing event in New England was present yesterday at the reopening of this famous track. Estimates place the attendance at from 25,000 to 30,000.

It was generally conceded by horsemen that record-breaking time was impossible, owing to the manner in which the spectators crowded on the track. The chief feature on the card was the free for all pace, in which Star Pointer, John R. Gentry and Frank Agan contested. It was hoped that the two minute mark would be threatened. But Gentry was killed in his effort to lower the high sulky mile record, and it was plainly evident that instead of being pushed McCleary held back Star Pointer in both heats, as Gentry could not force him and Frank Agan was several lengths in the rear

In the Gentry trial against the high sulky record, he was accompanied by a runner from the Tewsbury stables, driven by Noble. Summaries:

Free for all pace, purse $6,000; sweepstakes; best two out of three. Star Pointer, b h, by Brown Hal (McCleary) 1, 1; John R. Gentry, b h, (Bowne) 2, 2; Frank Agan, b g, (Spears) 3, 3. Time—0:34¼, 1:03¼, 1:35½, 2:06¼; 0:31¼, 1:02, 1:31, 2:04¾.

2:12 trot, purse, $1,000—Grace Hastings won; Maple Valley, Fred Kohl, Cephas. Time, 2:12¾; 2:15¼; 2:13¾.

2:20 pace, purse, $2,000—Forest Herr won; Sideworth, Pentland, Kannette, Ed. B. Young, B. C., Kitty Van, Sister Penn, Belle G. Time, 2:14½; 2:17¼; 2:15½.

2:30 trot, purse, $500—Pastoral won; Crete, Teasele, Bnene. Time, 2:17½; 2:18½; 2:21½; 2:23.

NOTES.

Minnie R., the noted old race mare, by John C. Breckenridge, which has a record of 2.10¼ pacing and 2.19 at the trot, and who also went a mile to wagon, with running mate, in 2.03, is the dam of Kyote, the good stallion who, last week, reduced his record to 2.25.

Monroe Salisbury's stable, now on its way east, is composed of Azote, 2.04¼; Boodle, 2.12½; She, 2.14; Tuna, 2.18¼; Erastus, 2.22½; Jib Albert, by Albert W., out of the dam of Flying Jib, 2.04; Director Prince (5), by Director, 2.17; Tabbie Stamboul (5), by Stamboul, 2.07½, dam by Guy Wilkes; Lady Salisbury (3), by Directum, 2.05¼, and the good pacers, W. Wood, 2.07, and Javelin, 2.13¼.

DENOUNCES TRUSTS.

Indianapolis Celebrates in the Old-Fashioned Manner.

INDIANAPOLIS, July 6.—Independence Day was celebrated here in the old-fashioned way, there being drills by the militia, speeches and the reading of the declaration of independence. Governor Mount made the principal address of the day at Garfield park, devoting considerable time to the burdens placed upon the people by corporations and trusts. In part he said:

"Corporate greed secures from the people valuable franchises, then abuses the privileges and betrays the trust thus secured. Gas plants, water plants, street railways and numerous other corporations, inflate their stock, show large capitalization and upon this watered stock demand the right to make unjust charges in order to secure fair earnings on the capital. They have one value upon which to earn profits, but a far different value upon which to be taxed."

AMERICAN WOMAN BEATEN.

Miss Nellie West Suffers Indignities at Honolulu.

VANCOUVER, B. C., July 6.—The latest mail advices from Honolulu say that Miss Nellie West, an American woman, was severely beaten by the Japanese marines from the warship Naniwa recently, while trying to assist her brother, who had been set upon by a number of men from the Japanese navy. She was confined to her bed next morning and unable to appear against her assailants in court, where they were charged with as sault and battery. A well known business man knocked down three sailors on the street the following morning in consequence, while American blue jackets went hunting for the ringleaders of the Japanese who made the assault. One who was pointed out to them as being guilty was so severely beaten by them that his life now depends on the result of an operation.

Plenty of Grain but Little Fruit.

PERU, Ind., July 6.—The prospect for a large crop of grains in this county is exceptionally good. Farmers have begun harvesting wheat, and it is thought that acres which yielded only ten bushels last year are good for thirty bushels this year. The hay crop has been a big one, and during the last few weeks corn has grown gratifyingly. The fruit crop in Miami county will be poor, as peaches and pears are scarce, and there will be only a fair crop of apples.

MANY OF THEM.

Chapter of Accidents, Serious and Trivial.

Brave Eight-Year-Old Boy Saves a Companion From Drowning--Several Prostrations at Robison Park.

The accident column is lengthened today by events growing out of the celebration of the glorious Fourth. Among the great masses of people gathered for a day's holiday it is to be expected that there must be unfortunates, and it is to be wondered at that the list is not greater than it really is. The chapter is as follows:

The young son of Robert Gibbons, of Taylor and Oakley streets, was one of a party of youngsters who went out to the Wabash railroad river bridge to swim last evening, and that he was able to return alive is due to the heroic act of a little eight year old companion named Miller. Gibbons had entered deep water when he was taken with cramps, which rendered him powerless to escape from his perilous situation. The Miller lad swam to his assistance and succeeded in getting him to the bank. It was a brave act and one that few lads so young in years would have attempted.

Mrs. La Boule, of 21 Pritchard street, while riding a bicycle this morning, collided with Eggeman's milk wagon, in front of Peltier's establishment. The lady was knocked from the wheel and received a gash in the forehead. Dr. Barnett dressed the wound.

John Ash, farmer of Perry township, drove to the city yesterday behind a spirited horse. He was returning home about 6 o'clock, and as he was driving across the Spy Run avenue bridge, someone threw a large firecracker, the explosion of which frightened the horse and the animal run away. Mr. Ash was thrown violently to the ground, and was stunned by the fall. He was taken to hope hospital, and Dr. J. H. Kappel was called in to attend him. A long gash was cut in his head and the right arm was badly lacerated.

Cora Fry, a little girl living on Barr street, picked up a firecracker to see why it didn't go off. It exploded and the girl's face was badly powder burned.

Henry Fehling, a young man residing on the Peters' farm, in Aboite township, fell out of a buggy on West Main street yesterday and sustained a severe gash in the head.

A little daughter of Henry Reinwald, in running to get away from a cannon firecracker, yesterday, fell and broke her right arm at the elbow. Dr. George B. Stemen reduced the fracture.

Ten-year-old Charlie Franks, of of Barthold street, looked into a toy cannon. It exploded and his face was terribly burned and torn by the discharge.

A son of John Kain, of South Lafayette street, got too near a large cannon firecracker and was raised several feet off the ground. He will eat his meals standing for a week or two.

The heat and the excitement at Robison park yesterday prostrated Mrs. Josie Heine. She was placed on a car and brought to the city. The patrol wagon was called and the woman was taken from the corner of Main and Calhoun streets to her home, at the corner of Clinton and Holman streets. Dr. J. M. McCausland was called and he pronounced the woman as being in a dangerous condition. After she was gotten into her bed and gained some rest she rallied. She will recover.

Mrs. Hart, whose home is on Pearl street, was overcome while dancing, and for a time it was thought that she would not be taken out of the park alive. She was carried from the pavilion to the car station, from where she was taken to the city. She was revived in a short time.

Miss Mamie Eggeman, of Pontiac street, was overcome by the heat while dancing at Robison park last evening and fell in a faint on the ground. She was brought to the city on a car and taken to her home. Dr. Ross was called, and after working an hour he succeeded in restoring consciousness. Miss Eggeman will recover.

John Becker, a driver for Centlivre Bros., suffered a sunstroke while on his wagon yesterday afternoon. He was taken to his home on Spy Run avenue, in a serious condition. He is somewhat improved.

Miss Allie Miller, of West Main street, was overcome by heat at noon yesterday, and fell unconscious on the sidewalk. She was taken home and a physician's efforts soon restored her to consciousness.

Miss Edith Simmons, of 293 West Main street, was overcome by the heat and excitement shortly before 9 o'clock and remained in a senseless condition for some time. Dr. Schraeder, who happened to be near, attended the young lady and soon pronounced her out of danger.

DIVED AND DIED.

Fatal Plunge of Hans Rietdorf at Robison Park.

Went Down in Nine Feet of Water and Did Not Come Up--Struck a Stump and the Blow Killed Him.

A shadow fell upon the merry-making at Robison park last evening by the untimely death of a youth named Hans Rietdorf, who while diving from the spring board at the park bath house struck his head upon a stump in the bottom, and was killed instantly. Young Hans was a good swimmer, having frequently enjoyed the sport at the high banks near his home. He had been swimming at the park about an hour, when he undertook a high dive off the wooden frame work above the float. He went down in nine feet of water, but his companions waited in vain for his appearance. Being certain that he had not risen to the surface the other bathers began a search, and in about fifteen minutes Judson Tyler, of Shawnee avenue, an expert diver, brought the body up, and with assistance, carried the body to the shore.

Coroner Kappel viewed the remains at the bath house and had them removed to Schone & Veith's. A second removal was then made to the undertaking parlors of Henry Wellman, where Dr. Greenawalt made a careful examination, ascertaining that the skull was fractured just back of the left ear. The blow which struck it must have caused instant death. The boy's forehead also bore the mark of having come in contact with a hard substance. It is believed that in going down he struck an obstruction which had probably been swung into the bayou by the current. Manager Phillips states that the utmost care is taken to keep the bathing premises clear of blocks of wood and obstructions of any kind. Several bathers say that young Rietdorf came up under the platform and if this was the case his head may have struck the sharp corners of the timbers. This theory of his death is shared by several more who witnessed the accident.

Hans Rietdorf was the seventeen year old son of Mrs. Wilhelmina Rietdorf, of 36 Cottage avenue, who is a widow. A brother, who is married, and two sisters who live at home, also survive him. The remains will be taken to the stricken home this evening.

A GOOD MATCH.

Shooting Contest by the Emporium Gun Club.

Fifteen Sportsmen Took Part and Some Good Scores Were Made--Record of the Ten Events.

The Emporium Gun club gave an interesting shooting contest at their range, north of the Lakeside ball park, yesterday afternoon. The ten events passed off smoothly and some very good scores were made. About fifteen sportsmen took part, among them being Mr. Miller, of Monroeville. William Wortle, of the Electric Gun club, acted as referee and gave universal satisfaction. Following is a score of the high guns in each event:

Event No. 1. Ten Bluerocks—Fahnestock, first; Joe Biemer and Knothe, second; Weatherhogg, third.

Event No. 2. Eleven Live Birds—Knothe, first; Keeler, second; Miller, Jones and Melsh, third.

Event No. 3. Ten Blurocks—Fahnestock, first; Miller and Short, second; Melhs, third.

Event No. 4. Fifteen Bluerocks—Miller, first; Short, second; Fahnestock, third.

Event No. 5. Fifteen Bluerocks—Miller, first; Fahnestock, second; Jones, third.

Event No. 6. Ten Bluerocks—Melsh, first; Short, second; Fahnestock, third.

Event No. 7. Ten Bluerocks—Jones, first; Miller and Melsh, second; George Biemer, third.

Event No. 8. Five Pair Doubles—Jule Biemer and Jones, first; Wort and Knothe, second; Frase and Short, third.

Event No. 9. Ten Bluerocks—Jones, first; Short, second.

Event No. 10. Ten Bluerocks—Jones, first; Short, second; Knothe, third.

RECORD BREAKER.

No Fourth of July Arrests, the First Time in Years.

Police Receive Notification of Several Thefts--Harry Crawford, a Farm Laborer, Under Suspicion.

For the first time in the history of many Fourth of July celebrations in Fort Wayne no arrests were made by the police yesterday and there was consequently no police court this morning. The celebration being centered at Robison park, the majority of people went there. No intoxicating drinks are sold on the grounds, which accounts for the harmony that prevailed throughout the day. No fights or disturbances were reported as having occurred at the several picnics held in various groves and parks.

STOLE CLOTHING.

John Monning, residing on the St. Joe road several miles from the city, reported to Superintendent Gorsline today that a farm hand named Harry Crawford had walked off with a suit of clothes and a revolver belonging to the Monning household.

OTHER THEFTS.

A thief took two horse blankets from the barn of William Berry.

Fifty feet of hose was stolen from the yard of Mrs. Geismar, on East Berry street, last night.

MACHINERY HERE.

Construction Apparatus for the New Court House.

Two Carloads Arrive This Morning and Six More Will be Along in a Few Days--Ready for the Foundation.

Contractors James Stewart & Co., received two car loads of derricks and construction material from St. Louis this morning. Six more car loads will arrive within a few days. Part of this machinery is to be used at the stone yards, which the contractors will establish along the Wabash tracks near Fairfield avenue, and where all the rough stone will be cut for a new court house. The rest of the machinery, consisting of derricks and engines, will be used on the court house ground.

Mr. Stewart stated to a SENTINEL reporter this afternoon that the work of putting in the concrete for the foundation will be commenced tomorrow morning, and from that time on the court house will assume shape. The excavation is about completed. That contract will be a loss of several hundred dollars to Messrs. Randall and Romy, who hold it. All future work on the building will be paid for by the day, and will not be sub-let by Stewart & Co.

HIS LAST BIRTHDAY.

Conrad Gerber Dies While Celebrating It.

In the Midst of His Guests He is Overcome, With Fatal Result--Death of Mrs. Emma Ring--Other Deaths.

Conrad Gerber, an old resident, while celebrating his fifty-first birthday anniversary yesterday, was overcome with heat and died in the midst of his guests. He had been a sufferer of diabetes, but was feeling better yesterday morning. While talking to those assembled about him he fell back in his chair and before medical aid could be summoned he was dead. He was a native of Germany and had lived in Fort Wayne for forty years.

Mrs. Emma Ring, the wife of Albert R. Ring, died last night of lung trouble. Her age was twenty-nine years and eleven months. Her husband is the well known clerk of the Lake Shore and Michigan Southern railroad offices, residing at 32 East Fifth street.

The funeral of Mrs. Mary Doyle was held from the Cathedral this morning.

The funeral of Frederick Meier will be held tomorrow morning from St. Michael's church in Goeglein.

NUPTIAL VOWS.

Pledges Made at the Altar for Better and for Worse.

Yesterday Pastor Zartman, of Grace Reformed church, performed the ceremony which united the destinies of John W. Dunham, of Cecil, Ohio, and Miss Nora Loecks, of Maysville, this county. The couple will reside at Cecil.

Tomorrow, Rev. L. L. Henson, pastor of the First Baptist church, will officiate at the nuptials of Mr. Hicks, of Fort Dodge, Iowa, and Miss Frances Rodeheaver, of this city. The bride is granddaughter of Tony Kelker, and the ceremony will be performed at his residence, 176 Griffith street.

DEGREE OF HONOR.

Installation of Officers Accompanied by Entertaining Features.

Degree of Honor No. 2 will have an installation of officers this evening, at the corner of Calhoun and Superior streets. Aside from the ceremonies which usually go with the installation, there will be a program of entertainment, and refreshments consisting of ice cream and cake. Members of lodges Nos. 22 and 26 have been invited to participate, and a big time is expected. The following program will be rendered:

Instrumental music ..... Misses Maggie, Dollie and Mr. L. Estes
Recitation ..... Mrs. John Leikauf
Vocal solo ..... Mrs. G. R. Resch
Dialogue ..... Mesdames Leikauf, Beals and Miller

Obituary.

John Small, one of the oldest settlers of Marion township, died at Hoagland, Ind., on the 30th day of June, 1897. He was born near Cincinnati, Ohio, June 25, 1819. At four years of age he, with his parents, emigrated to Cleveland. In 1838 they came to Allen county, Ind. October 2, 1841, he married Almira Whitcomb, to whom were born twelve children, of whom seven survive—Mrs. J. W. Brown, of Bluffton; Mrs. M. D. Founer, of Williamsport; J. E. Small, of Fort Wayne; F. W. Small, of Alvin, Ill.; Mrs. C. F. Lipes, M. F. Small, D. L. Small, of Hoagland. He lived in Marion township, this county, since 1838, with the exception of the last two years, which were spent in Hoagland. They celebrated their golden wedding October 2, 1891. Interment was made in the Antioch cemetery, Rev. George Cocking, pastor of the M. E. church, officiating.

Albert S. Morrey, a Harrison street restaurant man, fell from a stool and struck on a counter. A rib on the left side near the heart was broken.

MISERY loves company; Fort Wayne feels content with its lot after reading the weather reports from surrounding cities.

ARTHUR BALFOUR is reported to be an ardent advocate of women's rights. This is said to be owing to the influence of his clever sister, Miss Agnes Balfour.

ACCORDING to the Philadelphia Record there are now on file at the White house and the leading departments 105,106 applications for office, which number is being increased at the rate of 600 a day. This means over 160,000 republicans who will refuse to vote for McKinley for a second term.

THIS is a great country! All in one day, there was snow in Leadville, heat to a hundred degrees and more by the the thermometer, with many deaths from sunstroke, in various cities in the central Mississippi valley and in the upper lake region, near Duluth, a tremendous rain storm, in which there was further loss of life and damage to property.

THE wheatfields of Northern Indiana present a magnifibent appearance. The heads are exceptionally large and the berry is exceedingly plump and solid. The crop will be one of the best harvested for years. Harvesting has commenced and is being pushed vigorously. With anything like fair prices, the farmers of Northern Indiana will be pretty well fixed within a short time.

A NEW industry is opened by the process of justice at Shelbyville. A constable who attempted to eject a woman in default for rent was chased from the premises by the irate female, who was throwing boiling water at him. But the constable was badly crippled with rheumatism and his rheumatism has left him. Let the rheumatics get some one to chase them with boiling water and be free from trouble.

JOHN ADAMS, speaking of Independence Day, said many years ago: "I am fain to believe that it will be celebrated by succeeding generations as the great anniversary festival. It ought to be commemorated as the day of deliverance, by solemn acts of devotion to God Almighty. It ought to be solemnized with pomp and parade, with show, games, sports, bonfires and illuminations, from one end of the continent to the other, from this time forward for evermore."

THE promised anti-trust provision of the tariff bill has been dropped by the senatorial tariff tinkers for the reason that, after consultation with Senators Hanna, Chandler and others, it was concluded "that it would be extremely difficult to secure legislation that would be effective and that upon the whole it was impolitic and unwise to undertake it." This is interesting and candid, though, politically speaking, disingenious. That it is extremely difficult to secure effective legislation against trusts has been proved by experience, though the decision of the supreme court in the case of the Trans-Missouri Traffic association is proof that it is possible. But as the principal object of the pending tariff bill is to promote trusts it would certainly be impolitic to embarrass its operations by incorporating features antagonistic to its aim.

IN a recent decision by Judge Canty of the supreme court of Minnesota, he holds that the Salvation army or other unincorporated organizations in order to take advantage of bequests left them must be incorporated otherwise they can not receive a bequest, no matter on what terms the property may be left them. Incorporation is required that the beneficiary of the trust may be certain or capable of being rendered certain, or, in other words, so that the courts may be sure that the property bequeathed goes to the use and enjoyment of the association for which it was intended.

The Good Old Fourth.

We hear much of the "old fashioned Fourth," and many are the regrets expressed that the occasion is not celebrated now as it was in the good old times, when some say every man was a patriot and every boy wanted to be one. In the good old celebrations, picnics, enthusing speeches on the glories of the country—speeches in which the eagle was allowed to soar—readings of the declaration of independence, big dinners and games constituted the programs. The people were highly pleased, and the day we celebrate was looked forward to as the greatest of the whole year. But times have changed since then, and the Fourth of today is less demonstrative of patriotism, although more noisy. Nowadays an old fashioned Fourth of July celebration would draw few people of the cities, unless something extraordinary could be presented as an attraction. In the old days the celebrations were happy occasions, a meeting time for the people "from miles around." They were a custom, and a glorious one, from which the people have grown. Although patriotism permeated every feature of the old Fourths the idea of entertainment was also partially responsible for the unusual interest manifest in them. So soon as the public appetite for entertainment began to increase, interest in the old form of programmes decreased. The patriotism did not wane—it still lives—but it takes more now to arouse it than formerly. As a people who have become more used to independence, the blisters caused by the yoke once worn have healed, and we are not so much disposed to grow enthusiastically patriotic at the recitation of the glorious deeds of the forefathers. There are indications now that the healthier and more stable patriotism is being born; it would be unpleasant to believe that there is any deterioration. The patriotism now is less excitable—it is more as a great latent force that has its power in a devoted and united love of country. The idea that patriotism is dependent on hostility to foreign countries is wearing away. The struggle for independence is looked upon by all as the greatest event in the nation's history, making it possible for the country to become the greatest and the dearest of the whole world. The veneration and gratitude for what has been done finds its expression in a spirit intensely American, yet not hostile or unfriendly to others, which last the whole year. The upbuilding of the republic, the devotion to its institutions, the interest taken in its affairs, all bespeak a patriotism as grand as that found expressed in the good old days. The memories revived by the Fourth have not been dimmed, they are as dear as they ever were, for all that is contained in the event we celebrate was the beginning of the nation's life, and that life is our strength and hope. There has been no falling off in American patriotism, although there may have come a different method of showing it, yet who shall say the old way was the better?—Lafayette Courier.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see this article suffer from piles. It is one of the commonest diseases and one of the most obstinate. People have it for years and just because it is not immediately fatal they neglect it. Carelessness causes no end of suffering. Carelessness about so simple a thing as piles has often caused death. Hemorrhages occur from no apparent cause and loss of blood causes death. Hemorrhage occur during surgical treatment, often causing death.

Piles are simple in the beginning and easily cured. They can be cured even in the worst stages, without pain or loss of blood, quickly, surely and completely. There is only one remedy that will do it—Pyramid Pile Cure.

It allays the inflammation immediately heals the irritated surface and with continued treatment reduces the swelling and puts the membranes into good, sound, healthy condition. The cure is thorough and permanent.

Here are some voluntary and unsolicited testimonials that we have lately received:

Mrs. M. C. Hinkly, 601 Mississippi St., Indianapolis, Ind., says: Have been a sufferer from the pain and annoyance of Piles for fifteen years, the Pyramid Pile Cure and Pyramid Pills gave me immediate relief and in a short time a complete cure.

Major Dean, of Columbus, Ohio, says: I wish to add to the number of certificates as to the benefits derived from Pyramid Pile Cure. I suffered from Piles for forty years and from itching piles for twenty years and two boxes of the Pyramid Pile Cure has effectually cured me.

Most druggists sell Pyramid Pile Cure or will get it for you if you ask them to. It is one dollar per package and is put up only by the Pyramid Drug Co., Albion, Mich.

WON THEM BOTH.

Fort Wayne Won Two Games From Strouthers' Misfits.

They Were Both Easy Victories and Were Watched by Less Than Six Hundred People—Notes.

Con Strouthers did not keep his word with the Fort Wayne public, but appeared at Lakeside park yesterday with only five men to play the two games. The team was filled in with Collars, McDarby and Kenneill, amateurs, in the morning, and Ed. O'Meara was loaned to the visitors to catch. In the afternoon Minnehan played center, McDarby first, Collars short stop, and Weldon, of the Maroons, a local amateur team, caught. Both games, of course, were easy victories for Fort Wayne, although in the morning with a good man, O'Meara, behind the bat, Ely pitched a good game. Strouthers ought to be punished in some manner for inflicting the injury he has upon base ball in Fort Wayne. It is known that had he paid his players money due them he could have brought to the city a fairly good club and not appeared with the misfits that represented Mansfield. The first game, 28 to 1, was a crusher and assisted in keeping the attendance yesterday down to less than 600 when it should have been 3,500. The league, however, will have to bear the loss, as there is a rule which compels all the clubs to place the entire holiday receipts in a pool and divide them equally between the eight teams. THE SENTINEL will not tire its readers by discussing the games, but submits the following scores without comment:

OTHER INTER-STATE GAMES.

TOLEDO, Ohio, July 5.—Timely batting and sharp fielding won the morning game for New Castle. The locals could do practically nothing with Hickman. In the afternoon the Toledos won by brilliant fielding and a lucky two-bagger by Gilks in the fifth inning, after two men were out. A brilliant double play by Hassamaer and Meyers in the ninth inning saved the victory in the afternoon. Attendance at both games, 8,000. Score of the first game:

Toledo	0	0	0	1	0	0	2	2	0— 5
New Castle	2	0	0	0	5	1	2	0	0—10

Base hits—Toledo, 8; New Castle, 14. Errors—Toledo, 2; New Castle, 1. Batteries—For Toledo, Kelb and Arthur; for New Castle, Hickman and Donovan. Umpire—Schelble.

Afternoon game:

Toledo	0	0	0	0	2	0	0	0	1— 2
New Castle	0	1	0	0	0	0	0	0	1— 2

Base Hits—Toledo, 6; New Castle, 9. Errors—New Castle, 1. Batteries—Keenan and Arthur; Hewitt and Graffius.

DAYTON, Ohio, July 6.—Dayton won the morning game from Youngstown easily. The visitors were unable to hit Rosenbrough's curves. The score

Dayton	2	0	3	0	0	2	0	0	1— 8
Youngstown	0	0	1	0	0	0	0	0	0— 1

Base hits—Youngstown, 5; Dayton, 12. Errors—Youngstown, 5; Dayton, 1. Batteries—For Youngstown, Brodie and Zinram; for Dayton, Rosenbrough and Weand.

Youngstown shut out Dayton in the afternoon with the same battery the visitors had in the morning game. The score

Youngstown	1	3	0	0	0	0	3	2	*—9
Dayton	0	0	0	0	0	0	0	0	0—0

Base Hits—Dayton, 7; Youngstown, 15. Errors—Dayton, 3. Batteries—Brodie and Zinram, Rieman and Weand.

SPRINGFIELD, Ohio, July 6.—In the first game with Wheeling yesterday Springfield won by opportune batting. The score:

Springfield	0	1	0	0	1	1	2	2	1 3—11
Wheeling	1	0	0	0	0	1	0	3	3 0— 8

Base hits—Springfield, 10; Wheeling, 12. Errors—Springfield, 1; Wheeling, 4. Batteries—For Springfield, Pool and Stevick; for Wheeling, Hallowell and Messett. Umpire—Keefe.

A good hit by Lytle in the ninth, when three men were on bases, gave Wheeling the afternoon game. The score:

Springfield	0	0	3	2	2	1	0	0	1— 9
Wheeling	1	0	0	3	0	3	0	1	2—10

Base hits—Springfield, 15; Wheeling, 12. Errors—Springfield, 2; Wheeling, 2. Batteries—For Springfield, Treadwell and Stevick; for Wheeling, Campbell, Rising and Messett. Umpire—Keefe.

NOTES.

McDarby has played fine ball for Mansfield.

The Shamrocks play at Decatur next Thursday.

The Cincinnati Reds play the Daytons tomorrow.

Ely, a new man, is playing third base for New Castle, while Ross, who was injured, is off duty.

The Inter-State race is indeed a pretty one. Three games might put Fort Wayne in third place.

Mansfield has signed Pitcher Watkins, a south paw, who has been twirling for the Michigan university team.

All the clubs in the Inter-State league split even on yesterday's games except Fort Wayne and Mansfield.

The base ball club of Zion's Walther league defeated the St. Paul's club by a score of 10 to 1 in a ten inning game yesterday.

Lynch and Robinson reported too late for yesterday's game. Lynch has an offer from Springfield and Robinson wants to go to Dayton.

Hickman's good right arm won again yesterday. He is truly a wonder and will twirl the first game against Fort Wayne next Thursday.

New Castle comes Thursday for four games and there should be a big attendance at each game to recompense President Meyer for his fourth of July losses.

George Stallings and Bob Allen have changed places. Stallings will resume his old position as manager of the Detroit club and Allen will go back to the scene of his first success—Philadelphia.

In the Robison park league the Spy Runs and Keystones are at the top of the heap, each team having 1,000 per cent. The Shamrocks, Maroons, Rifles and Blues follow in the above order.

Few public men are more enthusiastic over base ball than Assistant Secretary of the State William R. Day. Away back in the early 70s the judge covered first base for the University of Michigan team and still carries a couple of crooked fingers as a result.

Warsaw Times: "If the proper financial assistance can be secured the Warsaw ball club can now have the service of two first-class minor league players—John Welch, a fine catcher, and William Heller, a good all-around man. These men played with the team at Goshen and did good work."

Boston Herald: "New Bedford's new pitcher, Guy M. Johnson, of Middleville, Mich., near Grand Rapids, left by boat tonight for his destination. He was released by the New Castle, Pa., team, and before that pitched for Kalamazoo college. He speaks highly of young Hackman, the New Castle pitcher, and declares him fast enough for the big league."

Mr. J. R. Burns, of Mansfield, arrived in Fort Wayne this morning and is trying to straighten affairs out for the team. He says this is an entirely new experience for Mansfield, but does not blame Strouthers except that he did not release Carroll and Mangan two months ago. Mr. Burns asserts that Mansfield will be in until the end and will immediately begin to recuperate.

Two thousand people witnessed the Rifle-Blues game at Robison park yesterday afternoon. The Blues were easy for the Rifles, being defeated by a score of 18 to 3. Lutz, who was in the box for the Blues, pitched good ball, but was given very rocky support. Green did the twirling for the Rifles, and had his opponents going in good style. He received good support. Both teams were slow on the bases. Link Bolinger, of Roanoke, umpired the game, and made a great hit with the audience.

Lew Whistler has taken charge of the Springfield team. Ex-Manager Hurd will be business manager. He made a strong effort to get Graffius, but Manager Lamoree refused to release him at the last moment, fearing it would weaken his team. Hemphill will probably not be signed as he jumped the Dayton team early in the season without being released and is now playing with an independent team at Saginaw, Mich. Dayton is now anxious to secure him. Cavanaugh, a new man, is playing short stop and the pitchers are Taylor, Treadwell, Poole and Coggswell.

The Keystones defeated the Shamrocks at Robison park yesterday morning. Both teams were sanguine of pocketing the game, and played hard to win until the last man was out. Quinn, who was in poor form, started to pitch for the Shamrocks. After six Keystones crossed the rubber in the first inning, Quinn was sent to the stable, and Falvey faced the Keystones the remainder of the game. Bates was in the box for the Keystones. The Keystones connected safely with the ball fourteen times, while the Shamrocks sent the pig-skin into safe territory twelve times. Superior work in the field won the game for the Keystones. Score: Keystones, 17; Shamrocks, 12.

Among the guests at the Wayne: E. H. Mock, Cleveland; C. M. Thayer, St. Louis; Ben Lowenthal, P. Pierd, Chicago; John Blum, Decatur, Ill.; M. B. Cone, Garden City, Kansas; Joe Fiebelman, Indianapolis; H. M. and W. O. Dimboody, Salt Lake City; W. H. McIntyre, Auburn.

Are You Really a Man?

Free, Absolutely, is This Offer to Weakened Men.

Discovery, Which Restored One Who Suffered, Given to All Who Ask.

Millionaries gain fame by great gifts, but their happiness cannot equal that of a citizen of the little village of Anchor, Ill., who in an interview tells how he regained youthful vigor by a splendid discovery which convinced him life is worth living after all. So happy is he that he is taking the trouble to tell those who are miserable and despondent how to be so no longer.

Many men suffer the awful mental forebodings of nervous weakness in silence, knowing well the dire consequences of habits of youth indulged in before they understood the certain results—or perhaps, like him, they read pretentious specialists, who did nothing but take fees. But life's sunlight burst suddenly upon him, he asserts, when, through happy chance, he found a medicinal combination, the result of years of research for a remedy for such weaknesses by men of science. At once it struck at the roots of physical and mental torture—an undeveloped state causing great embarrassment, nervousness, and lack of self-possession and ambition. It cured him. It made him a man.

It is this glorious discovery which he wants to make known to any man, young or old, who feels the fire of youth leaving him and who desires to restore vigor and size to shrunken parts, and stop drains which unfit a man for work and marriage and drag him from life's success. Upon a request in good faith mailed to A. E. Parrish, Insurance, Lock Box 710, Austin, Ill., this prescription will be sent free in a plain envelope. Though far from being rich, Mr. P. says he can afford at least a postage stamp to give happiness and life-hope to a fellowman. Write him in confidence.

BEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

How do you do Lady and Gentleman. Allow me to congratulate you for being in such a comfortable place, you look so fresh and hearty, and I am almost exhausted. Why is it? Well we use the Leonard Cleanable Refrigerator! They are the most complete ice saving, vegetable saving and health saving in the market. We have been in every place in the city, where they keep Refrigerators, but nothing like the Leonard. Say, go to the Indiana Furniture Store, they have the exclusive sale of the Leonard, they will show you all of the good points they have, and they are just the ones that can do it. Thank you, thank you! I will go see them at once.

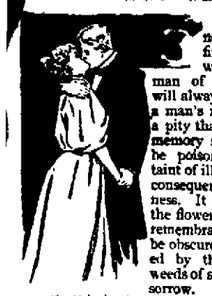
To the Young Face

Pozzoni's Complexion Powder gives to the charm; to the old, restored youth. Try it



The sweetness of the first embrace with the woman of his choice will always linger in a man's mind. It is a pity that the sweet memory should ever be poisoned by the taint of ill-health and consequent unhappiness. It is sad that the flower of a happy remembrance should be obscured and killed by the noxious weeds of sickness and sorrow. Too frequently this is the case. A woman cannot be a happy, helpful amiable wife who suffers from weakness and disease at the very mainsprings of her nature. Pity may grow up to take its place, but love itself seldom survives where this is the case. If a woman will, she may always hold her place in a man's mind and heart. If she will take the right care of herself in a womanly way she will never lose her rightful inheritance, a husband's love.

The best of all known medicines for women is Dr. Pierce's Favorite Prescription. It acts directly on the important and delicate organs that make wifehood and motherhood possible and makes them strong and well. It allays inflammation, heals ulceration, soothes pain and tones up and builds up tired nerves. It prepares for almost painless motherhood and insures healthy children. Thousands of women who were sickly, nervous, fretful invalids are now happy, cheerful and helpful wives as a result of its use. All good medicine dealers keep it and there is nothing "just as good." Any dealer who tries to persuade you that there is, is thinking more of his profit than of your welfare and health

Dr. Pierce's Pleasant Pellets are a safe, sure, speedy, permanent cure for constipation They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative and two a mild cathartic. They never gripe Druggists sell them, and no other pills are as good.

A GOOD RUN.

A Pennsylvania Stock Train Travels at Remarkable Speed

The Responsibility of Railway Auditors—Heavy Shipment of Electric Machinery About the Shops and Depots.

A remarkable freight run was made on the west end of the Pittsburg road last night, when the weight of the train is taken into consideration. The train consisted of twenty-eight cars, all loaded with cattle bound to the seaboard for export. It was in charge of Conductor Louis Miller and hauled by class S engine No. 138, with J. C. Pearson at the throttle and John McIntyre as fireman. It covered the distance between Fifty-fifth street, Chicago, and the east yards in this city, 148 miles, in six hours and fifteen minutes, including a detention of one hour and fifteen minutes, making the actual running time only five hours. The forty-one miles between Warsaw and the east yards were covered in one hour and twenty minutes, a good record for a heavy train.

A NEW ELECTRIC PLANT.

The Electric corporation this morning sent the machinery for equipping a plant to Madison, Ind., where the firm has a contract of considerable magnitude. Included in the shipment were two eighty-light arc and one 1,000-light alternating incandescent dynamos, 125 street lamps and all the necessary instruments and station equipment material.

FATAL THIRD ACCIDENT.

A man employed in one of the railway offices in Washington has for years been collecting newspaper accounts of railway accidents of all kinds. He now has thousands of these narratives, and from an attentive study of them he has come to the conclusion that no locomotive engineer ever came alive out of his third disaster. This is all nonsense, of course, but there may be a basis of truth in the circulations.

It seems that this belief is widely held by engineers themselves, and the maker of the scrapbook asserts that it is so well supported by experience as to be almost as demonstrable as the law of gravitation or any other natural regulation. He does not insist that engineers are never killed in their first or second accident, but he does maintain with great seriousness that the man who has had two "close calls" will, if he is wise abandon railroading and make his living some other way. It is not difficult to see how such a superstition should have arisen, for the chances that an engineer will three times survive the perils of collisions and derailments, greater for him than for anyone else on a train, are manifestly close to the vanishing point. To suppose that his danger is greater in the third than in the first wreck is, of course, merely another form of the delusion that "luck is bound to change."

THEY HANDLE MILLIONS.

The auditing department of the great American railroad corporation rivals in respect of its records and transaction, a governmental department. The earnings of all the lines of the Pennsylvania railroad system in a year average about $130,000,000 and the gross earnings of the Vanderbilk system amount to rather more—$45,000,000 from the New York Central, $21,000,000 from the Lake Shore, $10,000,000 from the West Shore and Nickel Plate, $33,000,000 from the Chicago and Northwest, $13,000,000 from the Michigan Central and about $15,000,000 from the collateral lines or systems. These figures are large, but they appear still larger when they are compared with items of federal revenue. The total receipts of the United States government from customs during the fiscal year ending in 1896 were $150,000,000, and from internal revenue taxes $146,000,000. The two together made up $296,000,000 of public revenue for the government of the affairs of a nation of 75,000,000 inhabitants, but the two railroad systems referred to represented together receipts of $275,000,000, and if a third big railroad system was added, the receipts of the federal government would be exceeded.

MINOR MENTION.

The Haskell & Barker car works are building six hundred cars for the Chicago and Eastern Illinois.

For the first time since the Columbian exposition every Pullman and Wagner sleeping car is now in use.

Charles Consar, of the Bass offices, is entertaining his brother-in-law, James McCoonochie, of Chicago.

In the year ending June 30 the Pennsylvania handled on its lines 7,110,499 tons of coal and 2,131,115 tons of coke.

Joseph Disser, foreman of the upholstering room at the Pittsburg shops, is off duty on account of the death of his aunt.

Charles Battcher, who has been laid up with a lame back for a week, was able to resume his work in the Bass blacksmith shop this morning.

The Chicago freight handlers of the Panhandle lines have struck for more pay, and their places are being filled by employes at points along the line.

Negotiations are pending which will probably result in the Delaware, Lackawana and Western securing control of the Northern railroad of New Jersey.

The Wabash has ordered built at its own shops five parlor cars and one dining car, to be put in special service between Chicago and Buffalo on the new line

J. B. Barnes, superintendent of motive power of the Wabash, is in the city.

After a few days' illness, John Unger has resumed his place in the Pittsburg tin shop.

F. A. Weigand, a tinner at the Pittsburg shops, is spending a week with his brother at Indianapolis.

Benjamin Pettit has been transferred from the laboratory at the electric works to the incandescent testing room.

J. J. Bengnot has returned from Chicago, where he spent several days, and this morning reported at the Pittsburg shops for work.

C. C. Scott has returned from Cincinnati, where he spent the Fourth and this morning resumed his place in the electric works.

The Illinois Central has received all the bonds of the Ohio Valley road, and at the foreclosure sale July 6 will bid the property in.

The Pennsylvania has just put in service between Jersey City and St. Louis two commodious and conveniently arranged new postal cars.

George Neipoth, a painter in the Wabash shops, was summoned to Chicago this morning by a telegram informing him of the death of his aunt.

Chief Engineer Hobson has been assigned by the Grand Trunk people to supervise the work of the reconstruction of the Victoria bridge at Montreal.

William Jones, of the Wabash shops, who for two weeks was encamped at Cedarville, Mich., has returned to the city and resumed his place at the bench.

S. W. Hasty and Charles J. Majors have entered the Wabash shops as apprentices, the former in the boiler department and the latter in the machine department.

The executive committee of the Electric Relief union will meet this evening to appoint sub committees to arrange for the excursion to Robison park on the 24th inst.

Foreman George A. Szink resumed charge of affairs at the Pittsburg blacksmith shop this morning, after a two week's visit with relatives and friends in Pennsylvania.

Mr. and Mrs. C. Burnhardt have returned from Chicago, where they were the guests of relatives over Sunday. Mr. Burnhardt is a tinner and he works in the Pittsburg shops.

M. S. Conners, superintendent of the Columbus and Hocking Valley, has instructed conductors to politely request gentlemen not to remove their coats when riding in a coach with ladies.

Piece work in the Norfolk and Western shops has been abolished and the old system of paying by the day substituted. The skilled men are not pleased with the change, as it means less wages for them.

W. S. Wells resumed his place in the Pittsburg machine shop this morning, after an absence of a month. He was engaged in organizing lodges of the Royal Arcanum in some of the nearby towns and cities.

E. A. Ford, general passenger agent of the Pennsylvania lines west, has been asked to deliver the opening address at the meeting of the Traveling Passenger Agents' association to be held in Nashville in October.

The side rods of the new engines built for the Santa Fe at the company's shops are made from old coupling links and pins. This particular class of scrap iron was chosen on account of the superiority of its metal.

Bert Olds has been transferred from the testing room to the engineering department of the electric works. This morning he left for Jeffersonville, where he will assist in installing the machinery at the state reformatory.

W. S. Danes, Wabash bridge superintendent, paid Robison park a visit last evening and was delighted with the fire display and other features of entertainment which the management had so generously provided for the public. Mr. Danes resides in Peru.

The management of the Pennsylvania lines west of Pittsburg have for sometime past been considering the advisability of changing the style of uniform coat worn by passenger conductors. With this contemplated change in view, a representative passenger conductor from each of the divisions on the lines west of Pittsburg are to report to and be interviewed by General Manager Loree upon the subject in question.

Two brothers named Bohlman, employes of the Olds Wagon works, were victims of old Sol's intense rays. One was overcome by heat last Saturday and the other succumbed Sunday, but neither was seriously affected.

On July 1st the Southern Railway organized three new divisions making twelve divisions in all These divisions are named after some city in such division instead of by numbers, as heretofore. No changes in personnel will result from the new arrangement.

Mrs. B. D. Wyer, wife of the Pittsburg shopman, was summoned to Delphos, Ohio, yesterday by a telegram which stated that her mother was dangerously ill and not expected to recover. Mrs. Wyer's father died a few weeks ago, and since his demise his widow has declined very rapidly.

The Panhandle has sixty class R freight engines on the division between Columbus and Pittsburg, and so heavy has been business that for two weeks these engines have been in constant service, as soon as arriving at one end of a division being turned round with another crew and sent out.

Adolph Frohmuth, of Chicago, and Fred Frohmuth, of Muncie, were the guests of relatives in this city over the Fourth. Both gentlemen formerly resided here. Adolph, who is a machinist by trade, is now engaged in the restaurant business in the Windy city, while Fred is still following his old vocation, that of a wheelmaker.

L. H. McCormick, ticket agent for the Big Four in Anderson, has been notified to report in Louisville tomorrow to take charge of the company's office there. Mr. McCormick has been in charge of the office in Anderson for two years, having been promoted to the position from Lafayette. The new appointment pays a salary of $100 per month.

Three men were discharged by the Pennsylvania at Bradford, Ohio, Saturday for buying coal that had been stolen from the company's cars. The employes discharged did not steal the coal, but bought it from persons supposed to have stolen it. The company has lost heavily by reason of the coal thieves at Bradford, and is taking means to cause their apprehension.

Robert Cran, foreman of the Bass car wheel foundry, has had an additional fan put in operation for the benefit of the furnace men, whose work is of the hottest character The force has also been increased from five to nine so they can relieve each other every few minutes. By this means the men have been able to perform their arduous duties without any suffering from the heat.

The True Remedy.

W. M. Repine, editor Tiskilwa, Ill., "Chief," says: "We won't keep house without Dr. King's New Discovery for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Dr. King's New Discovery. No other remedy can take its place in our home, as in it we have a certain and sure cure for Coughs, Colds, Whooping Cough, etc." It is idle to experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Dreier & Bro.'s Drug Store.

INDIAN JUGGLERS.

American Aborigines Who Rival the Hindoos In the Black Art.

The Menomini Indians, who occupy a reservation in the northeastern interior of the state of Wisconsin, nearly equal the east Indians in the art of jugglery. The snake bag trick, which is part of their mortuary exercises, is so cleverly worked as to deceive even the elect

The performer held before him a red flannel bag, which measured about 20 inches in width by 30 in depth. The upper corners were tied by the hands so as to spread out the bag like a single piece of goods Then, taking the bag in his hands, he rolled it into a ball to show there was nothing within. Again taking the bag by the upper corners, the performer held it before his face like a banner and slowly began to dance forward His confederate preceded him, dancing backward, chanting with the performer and making gestures before the bag Slowly two snakes' heads began to emerge from the top of the bag, gradually working their

THE SNAKE BAG TRICK.

bodies farther and farther from the bag, until they were about half way out. Slowly the heads retreated into the bag, the men dancing and chanting the meantime, until they disappeared entirely The snakes continued to emerge and disappear at the will of the performer, who finally rolled up the bag, snakes and all, and put it in his breast

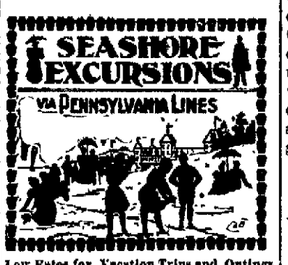
The explanation of the trick consists in the construction of the bag. Between the corners held by the thumb and forefinger was a strip of cloth or tape, to the middle of which were attached the ends of the stuffed snakes These ends were only about eight inches long, and as the tension on the tape was lessened or tightened the weight of the snakes' bodies forced them up or down the tape casings. The bag is shown in the lower corner of the picture.

Coyote Farming In California.

In many portions of California the coyote is a troublesome beast and plays havoc with domestic animals. Though it is to the interest of the granger to annihilate the prowling varmints, and the state has for several years expended about $200,000 per year for scalps, coyotes are more numerous now than ever. At first the bounty was $1 per scalp for slain coyotes, but the politicians finally got the figure raised to $3. At once the grangers saw that raising infant coyotes was to become a profitable industry and set about encouraging their propagation. Recent investigations show that regular coyote farms were established, and the "honest grangers" did such a thriving business that their other crops languished. In the course of a legislative investigation recently it was shown that in one county where 4,000 scalps had been turned in during the year more than three-fourths of them were fraudulent, it being proved that four or five scalps were made from each coyote skin; also that some of the scalps were those of foxes and wolves. The town officials never having seen either of these animals, the deception was an easy matter, for the coyote bears a strong resemblance to both of them.

A Giant Horse.

Jumbo, a horse owned by a Savin Rock shipbuilder, is said to be the largest horse in Connecticut. He is nearly 7 feet high and weighs 1,700 pounds. He is a powerful animal and has dragged, with apparent ease, a two ton load. With the children he is a great favorite. It costs a good deal to feed him, as he has eight pecks of oats at each meal and makes away with 200 pounds of hay every week. His shoes are of unusual size and weigh four pounds each.—Boston Herald.



Low Rates for Vacation Trips and Outings Along the Ocean.

Round Trip From Fort Wayne only $12.50.

To Atlantic City, Cape May, Avalon, Sea Isle City, Anglesea, Ocean City, Holly Beach or Wildwood at very low fare, round trip tickets to either resort being obtainable at the same rate.

The first excursion will be run Thursday, July 15th, followed by a second four weeks later, Thursday, August 12th. Round trip rates to either Atlantic City, Cape May, Avalon, Sea Isle City, Anglesea, Ocean City, Wildwood or Holly Beach, New Jersey, will be $12.50 from Fort Wayne and proportionate low rates from other ticket stations.

For these excursions train No. 6 leaving Fort Wayne at 7:00 a. m., will have sleeping cars and Pennsylvania Standard Coaches which will be carried through Pittsburg and Philadelphia to Atlantic City, enabling excursionists to make the trip without changing cars. Excursion tickets will also be good on all trains except the Pennsylvania Limited, July 15th and August 12th. Through trains over the Pennsylvania Lines have sleeping and dining cars and Pennsylvania Standard Coaches to Pittsburg and Philadelphia. Between Philadelphia and the seashore, parlor car and coach trains run at frequent intervals. Uniformed attendants meet trains at Pittsburg Union Station and Broad Street Station, Philadelphia, and assist passengers to transfer from one train to another.

The return limit will cover twelve days including date of sale, which will be ample for customary ten days' vacation. For further desired information, apply to

HIRONS' VEGETONE.

It can be Procured at Your Druggists.

Use Hirons Double Treatment for Catarrh and Hay Fever.

Use Hirons New Asthma and Cough Cure for Asthma, Bronchitis, Pneumonia, Coughs, Colds, Throat and Lung Troubles.

Vegetone is purely vegetable in its composition It is a reliable and permanent cure for diseases of the liver and kidneys, constipation, chills, malarial fever, loss of appetite, and a sure and effectual cure for headache and dyspepsia.

Vegetone acts by giving tone to the stomach, strengthening the liver and kidneys, and assists these most important organs in throwing off the impurities in the blood. Every person, in the spring of the year, needs a good, safe tonic for the replenishing of the system after a winter of inactivity, and Vegetone will produce the desired effects, being purely vegetable and a mild, pleasant laxative, thus throwing off the bile from the stomach, producing new vigor.

CATARRH.

One of the most troublesome and dangerous diseases known to mankind, can in the large majority of cases, be permanently cured. Many who were victims to that disease have been cured, and many more are being cured. Double treatment for Catarrh does its work effectually; clearing it out of the head, driving it out of the blood, where it exists, and ever will exist, unless the health destroying virus is eradicated from the system. Cure it. For it is not only a constant discomfort, but a perpetual menace to life. Use the New Asthma and Cough Cure as the blood purifier, and the Speedy Catarrh Cure for the nasal treatment for Catarrh, and soon those troublesome and distressing symptoms will disappear. The constant dripping of the mucous into the throat, and the pain in the head will cease. The hearing, sight, smell, and taste will be restored.

HAY FEVER.

Hay Fever, or Hay Asthma as it is often called, is a combination of Bronchial and Nasal affections. The immediate cause and source of irritation being of external origin, attacking individuals during the months of May, June and August. The pollen of hay, dried grasses and rag-weed comes in contact with the nasal and bronchial membranes, involving all the air passages, causing immediate irritation, frequently disabling persons afflicted therewith. The great discomfort and suffering, say nothing of the the loss of life caused by this terrible disease, may be avoided by using Hirons' Double Treatment, which is a sure, safe and permanent cure. Commence using the medicine at once, and get your system in condition to resist the effect of these agencies upon the mucous membrane, thereby keeping the tissues in a healthy condition.

A Hay-fever Victim Made Happy.

The Hirons Medicine Co., Fort Wayne, Ind.

GENTLEMEN:—I have been afflicted with Hay-Fever in its most malignant form for years. The first attack would appear in June. During August and September My sufferings were intense. Water would run from my eyes and nose, the paroxysm of sneezing were uncontrollable, and I had terrible burning pains in my head. I learned of your Double Treatment for Catarrh and Hay-Fever and procured it at once. After having used three bottles of the remedies I was entirely cured. I heartily endorse your valuable medicine, and advise all Hay-Fever sufferers to give it a trial (SIGNED.)

What the Resident Manager of the Chicago Newspaper Union Has to Say.

The Hirons Medicine Co., Fort Wayne, Ind.

GENTLEMEN:—Your Mr. A. R. Hirons persuaded me to give your Double Treatment for catarrh a trial, and after having used it about 30 days, I can honestly say that the results have been very satisfactory. I have been a sufferer from the disease since childhood, and was so bad at times that the membrane would bleed constantly. By the use of your medicine I have stopped the bleeding, my head is greatly relieved, and I have no more difficulty with my breathing. Yours truly,

CHARLES D. TILLO.

"La Grippe Cough Cured."

Hirons Medicine Co., Room 3 Schmitz Block, Fort Wayne, Ind.:

DEAR SIRS:—I had a severe case of La Grippe some time ago and suffered with a terrible cough until I tried a bottle of your New Asthma and Cough Cure. I used only one bottle of the medicine and it cured me entirely. I have had no cough since.

[Signed]
MRS. CHARLES C. ADAMS,

Testimonial From Ex-Judge of the Superior Court of Allen County.

Hirons Medicine Co., Room 3, Schmitz Block, City:

Having been a great sufferer from that most distressing disease, asthma, and having used your Asthma Remedy for the last few months, I can certify very cheerfully, that it has afforded me great relief, and I feel confident that in the majority of cases, will accomplish a permanent cure.

Respectfully yours,
A. A. CHAPIN.

Believes It Saved Her Life.

The Hirons Medicine Co

GENTLEMEN:—I wish to tell you how thankful we are for the great good your medicine has done for our daughter, Mrs. John Metcalf. We sincerely believe that it saved her life. In November she had a bad case of LaGrippe, it left her with an awful cough. Our family physician informed her husband that she was threatened with consumption. We knew not what course to pursue, until one day when Mrs. Metcalf was reading your advertisement in the WEEKLY SENTINEL she resolved to try a bottle of your new Asthma and Cough Cure After using the remedy for a short time she was able to sit up in bed. In two weeks she was up and around. Her cough ceased, and now she is entirely cured, and advises all who have lung or throat trouble to give your medicine a trial.

Yours Truly,
SAMUEL DISLER

At the Grand Canyon of the Yellowstone.

"Where the road turns to the left at Grand View, walk out over the salient of rock at the angle itself, sit down on the farthest chimney shaft, over rocks naturally white, but now blackened by weathering. If possible, go there in the morning or in the latter part of the afternoon. At noontime the light is too strong, and the details of the canyon are smothered, and the individuality of the walls killed. But with a soft morning or afternoon light every detail of one or the other of the walls leaps out from the general mass as if instinct with life. And what a wonderful sea it is that lies beneath and beyond us. A painted sea, not of water but of rock. And such painting! Try to distinguish the decided colors and their infinite variations. The most wonderful part of it is the rare blending, where one fades into another, and yet thou canst detect neither the beginning nor the ending."

The above is taken from "Wonderland 97," a new tourist book that tells all about Yellowstone Park.

Send to Chas. S Fee, Gen'l. Pass. Agent, Northern Pacific Railway, St. Paul, Minn., six cents and get "Wonderland 97." 17tf

ESTABLISHED 1833. TUESDAY, JULY 6, 1897. PRICE TWO CENTS.

A pretty poster girl adorns the cover of the July issue of "Fashions." The contents of the number present a rare combination of pictorial beauty, fine literary text, and authoritative description of the fashions prevailing in the American metropolis and in those standards of taste in wearing apparel, London, Paris and Vienna. The designs are especially chic and the concert-goer, the at-home, the original work of original artists.

The opening article is a particularly le valuable one by that matriarch among American women, Mrs. Mary A. Livermore, on "The Solidarity of the Social Life." Marie Louise Dodd contributes a bit of graceful fiction. An article full of helpful suggestions is that upon "How to Take It Most Beneficially," Mary Gay Humphreys, Helen Marshall North, and other well known writers deal with topics of general interest.

Taken column for column it may be said that "Fashions" has no equal in the field it purposes to cover.

THE GREAT STRIKE.

Sketched Takes an Encouraging View of the Situation.

Commissioner Dunlap Coming Home to Use the Influence of the Worker.

Columbus, Ohio, July 6.—President Ratchford, of the United Mine Workers, is greatly pleased with the progress of the present strike and regards the outlook as exceedingly bright. An encouraging report was received from the Pittsburg district this morning, which stated that, with the exception of the mines of the New York and Cleveland, that has a conspiracy and now or two mines where the miners are under contract, all were out. It is stated that District President Dolan, of the Pittsburg, expects the miners employed by the New York and Cleveland the Coal company to join the suspension in a day or two.

It is thought that when the miners of the above mentioned company quit work it will have the effect of bringing the miners of the other one or two mines out, regardless of the contracts which they may be under. This will make the suspension complete in the Pittsburg district. The Pittsburg district is the only one that a report has yet been received from the national headquarters in this city. Nothing had been heard from West Virginia by the national officers this morning, but a report was expected from that section some time during the day.

In regard to legislation for the benefit of the miners and working men President Ratchford said:

"National legislation is going to be established for a shorter eight hour work day and the enactment of a minimum wage law, as well as national arbitration for the settlement of future difficulties, may be expected. This, however, will depend upon ourselves. If we unionize against those who are not, and if they are satisfied to live in slavery, our national congress will offer but little objection. It is to be hoped every man in this country will lay down his pick and shovel in this part to bring about a better system for himself and his posterity."

In summing up the whole situation I am well pleased and feel really confident of the outcome. Our miners have an opportunity at this time which they have never had before. They want to do and realize it. They may never have it again.

"The press, the pulpit and the people are almost united in their support. Offers of assistance have come from state and national unions. The labor league of Pittsburg, which is a strong and powerful organization, at a meeting held in Pittsburg on Sunday last, resolved to sustain the miners and give them material aid, if it be required. With all of these influences and many others that might be mentioned in the future of the mining industry will occupy a higher plane and at least the necessaries of life will be secured to those dependent on that branch of industry."

Mr. Brombolz, who manages the home office of the General Mining Coal company, says that at present the output of coal in storage on the northwest. He estimates that this will supply all demands for at least four months, no matter how general the strike becomes. There is considerable coal on the Ohio docks ready for shipment by lake, but that is all. It will be sent west. It will be held for the purpose of supplying transient trade. With respect to a supply for the railroads, it is estimated that the different companies have enough coal on hand to last them about a week. Nick Mealey's Dunkirk contained telegrams from the valley showing that the miners were not in good financial shape, owing to the fact that they have not had much work for months back. Messrs. Allen Pollock, Asa Stevens and Nick Mealey, all miners of that city, Allen county, are in the city for the purpose of making a canvass for a contribution to a fund to relieve the miners of any distress which the strike might cause. They have been here for a day or two, and a number of personal visits to the different shops and places of business in the central part of the town. They have divided the city into districts.

Pittsburg, Pa., July 6.—The strike of the coal miners went on in the Pittsburg district and reports as to its extent are so conflicting and meagre that it is difficult to tell how many responded to the strike order. The miners' officials had not heard from one fourth of the mines in the district at 1 o'clock, but they expressed themselves confident that the order had been generally obeyed and that all the diggers would be out in a few days. The reports received say that all the mines on the Wheeling division of the Baltimore and Ohio railroad are idle. Among the mines shut down are those of the Pittsburg and Chicago and the Connellsville.

The Reynolds mines are also idle as are those at Shaner. In the Panhandle district, the Champion mine is idle. The only report received of mines that are working in that district are from the Panhandle mine of M. A. Hanna & Co. and the Bradley Brothers. All the Hazlewille mines are idle, and but sixty men are at work in the Jumbo mines. The most encouraging reports for the strikers come from the river mines, and it can be stated that fully 4,000 river diggers are idle. But few mines are open in that section, and the indications are that by Thursday every mine will be shut down. The miners are determined in their demands. The operators admit that the mines on the Wheeling division are idle today, but say they hope to start this week successfully, as all the men want to work as usual, and say they will not join in the movement.

A dispatch from Wheeling, W. Va., says that the men at the Schoen mines, on the Baltimore and Ohio railroad in that city, went to work this morning. The 3,000 miners on the Cleveland, Lorain and Wheeling railroad voted to inaugurate a strike and are at work as usual.

AGAINST SALOONS.

The People of Springfield Township Won't Have Them.

A Big Remonstrance Filed With the Commissioners—Protection Manufacturing Co. Assigns.

The residents of Maysville and Springfield township are opposed to saloons and these have not been a saloon in Springfield since the Nicholson law went into effect. Some time ago Ralph A. Gurnther established a notice that he would apply for a license to locate a saloon in Maysville. Citizens of that little village started out with a remonstrance and soon secured the signatures of more than half the resident voters of the township. This remonstrance was filed with the commissioners and today Gurnther was to make application. He did not appear before the commissioners and it is believed that on learning of the remonstrance he decided not to make application.

There has been no license asked in Cedar Creek township since the passage of the Nicholson law until today when the commissioners granted a license to Rudolph Schwartz. A remonstrance was circulated but not enough signatures were secured.

PARTNERSHIP ASSIGNS.

The Perfection Manufacturing company, whose factory is just south of the St. Mary's bridge on the New Haven avenue, has assigned all its property to T. D. Tuthill in consideration of the meeting obligations aggregating $7,500. On August 7 the factory will be sold should such obligations not have been paid.

NOTES.

Marriage licenses have been granted to Sarah Farris and Julia Mylard, Irving C. Hicks and Frances G. Rodenbeaver and Martin Schenck and Elizabeth Fischer.

In the superior court John A. Klett, executor of the estate of John Klett, deceased, brings suit on mortgage against John Krack, et al. Demand, $2,500. Judge W. H. Coleman is plaintiff's attorney.

Judge Watkins has adjourned the hearing of the case of H. B. Claflin company vs. Louis Wolf, owing to the death of Judge Zollars' wife's mother.

The county commissioners and Peter Engemann and City Civil Engineer Bond Shull have returned from Chicago, where they consulted with Engineers Peete and Richards in regard to the tunnel. Certain changes have been practically agreed upon and now the tunnel is secured. Mr. Peete will arrive in Fort Wayne tomorrow to look after some business for B. S. Tulan, who is at Mount Clemens.

NEGRO ELECTROCUTED.

A Colored Wife Murderer Pays the Penalty of the Crime.

Sing Sing, N. Y., July 6.—Henry Barker, colored, was electrocuted here today for wife murder. The crime was committed on August 30, 1895, just outside of White Plains. Barker was jealous of his wife and after being separated from her for some time returned on the date mentioned and shot her dead. He then cut upwards backing her body with a spade.

Richmond, Ind., was visited by refreshing rains last evening. Such a rain would be hailed with delight by our citizens, prevailing it is followed by cooler weather.

The Christian Endeavorers.

INDIANAPOLIS, Ind., July 6.—A special telegram from Omaha says: Wednesday, June 30th Union Pacific run 23 special trains carrying 10 or more persons on each train. All trains arrived at destination on scheduled time, and Christian Endeavorers delighted with the service. Thursday, July 1st, 13 special trains all arriving on scheduled time or better. Telegrams from Christian Endeavor managers in charge, thanking Union Pacific for splendid service. Friday, July 2nd, at 2:30 p. m., 6 special trains. Indications are that Union Pacific is carrying 25 per cent or more of Christian Endeavor business.

There's one thing about the magic soaplet," said the peddler, "and you can't deny it."

"What is it, Murry?" said the practical woman. "How much to-day?"

"It won't rub off on the pillowslips," said Harper's Bazar.

ALL IS READY

For the Big Christian Endeavor Convention.

Thousands of Visitors Dropping Into San Francisco Since Near The Big Concert Chorus.

SAN FRANCISCO, July 6.—All is now in readiness for the great Christian Endeavor convention. About 6,000 delegates with as many more visitors are expected today and twice as many more tomorrow. The baggage room in the ferry depot is crowded with trunks and valises. Last night there were thousands of persons at the ferry, jaded in great heats, under the steel arches awaiting carriers and there were many pieces in it as piles that leaners were looking for but could not find. About fifteen car loads of baggage are due to arrive today.

The people of San Francisco, the concert chorus and leaped chorus will give their concert in the Mechanics Pavilion. There are the singers who are to furnish the music at all the Endeavor meetings and tonight they will be united for the concert. United States Assembly Hall will give a dinner tonight at his residence on the Presidio to the Endeavor delegates of the United States missionary commissioners.

The following guests will be present: Senator Edward O. Wolcott, of Colorado, and Mrs. Wolcott; Former Vice President Adlai E. Stevenson, of Illinois; Mrs. Stevenson; Rt. Rev. Thomas Jackson Dam, of Mass.; Sir Michael Herbert Beach, the chancellor of the exchequer, and Lady Hicks Beach; George J. Goschen, the first lord of the admiralty, and Mrs. Goschen; Lord and Lady Rothschild, Mr. and Mrs. W. H. Grenfell and Mr. and Mrs. George S. Curzon; Lord and Lady Twemmouth, the Earl and Countess Errell, Mr. and Mrs. John W. Foster, and Sir Julian Pauncefote, the British ambassador to the United States, and Lady Pauncefote.

LOCAL LINES.

Mr. and Mrs. D. L. Harding and Mr. and Mrs. Robert Harding have returned from Rome City.

Bell Locke, of the Bell Locke livestock, Ind., took part in the Fourth of July festivities at Robison park.

A very important meeting of the official board of the West Jefferson Street Church of Christ will be held at the church tonight.

W. C. Cassady, an attorney of Lenar, Texas, is visiting the parents of his wife, Mr. and Mrs. Martin Kramer. Mrs. Cassady has been here several weeks and will remain during the summer.

F. P. Vance, formerly a resident of Fort Wayne, but now of Delaware, is in the city today perhaps looking for Dellaire, where he and his family spent the Fourth, the guests of his wife's parents.

John Warner, of Hillsdale, Mich., who was visiting his son, John, at 284 West Main street, returned home today. John Warner, jr., has been quite ill, but is now on the road to recovery. He will be able to travel he expects to go to Hillsdale to remain until his health is fully restored.

The Emanuel's congregation had a picnic at Swinney park yesterday and it was attended by a large number from the city and country. The Wayne Tent band discoursed good music during the day and it was a delightful concert, the leading feature of which was "The Indiana War Dance."

The sons of St. George held a picnic on the Lake Durnell farm, four miles southwest of the city yesterday. The party was well supplied with edibles and had dinner and supper in the grove. There were various amusements, not the least of which were the games rendered by Messrs. John Sisler, William Hanke and Joseph Sisler. NOT "SUCH A MUCH."

United States Special Embassy Did Not Cost $80,000.

State Department Allowed Only $2,000 and the Count of it Only Was Used.

LONDON, July 6.—It has been repeatedly reported from America that the expenses of the United States special embassy at the queen's jubilee were $80,000 pounds. The United States department only allowed three people for the expenses and probably not a quarter of this amount has been used as Mr. Reid, the United States special envoy to the queen's services, are paying their own expenses. Mr. Reid goes to Windsor this afternoon on the queen's invitation and will dine and sleep at Windsor castle. United States Ambassador Hay will give a dinner tonight at his residence to the Endeavorers, the guests of honor of the United States missionary commissioners.

The following guests will be present: Senator Edward O. Wolcott, of Colorado, and Mrs. Wolcott; Former Vice President Adlai E. Stevenson, of Illinois; Mrs. Stevenson; Rt. Rev. Thomas Jackson Dam, of Mass.; Sir Michael Herbert Beach, the chancellor of the exchequer, and Lady Hicks Beach; George J. Goschen, the first lord of the admiralty, and Mrs. Goschen; Lord and Lady Rothschild, Mr. and Mrs. W. H. Grenfell and Mr. and Mrs. George S. Curzon; Lord and Lady Twemmouth, the Earl and Countess Errell, Mr. and Mrs. John W. Foster, and Sir Julian Pauncefote, the British ambassador to the United States, and Lady Pauncefote.

LOCAL LINES.

Mr. and Mrs. D. L. Harding and Mr. and Mrs. Robert Harding have returned from Rome City.

Bell Locke, of the Bell Locke livestock, Ind., took part in the Fourth of July festivities at Robison park.

A very important meeting of the official board of the West Jefferson Street Church of Christ will be held at the church tonight.

W. C. Cassady, an attorney of Lenar, Texas, is visiting the parents of his wife, Mr. and Mrs. Martin Kramer. Mrs. Cassady has been here several weeks and will remain during the summer.

F. P. Vance, formerly a resident of Fort Wayne, but now of Delaware, is in the city today perhaps looking for Dellaire, where he and his family spent the Fourth, the guests of his wife's parents.

John Warner, sr., of Hillsdale, Mich., who was visiting his son, John, at 284 West Main street, returned home today. John Warner, jr., has been quite ill, but is now on the road to recovery. He will be able to travel he expects to go to Hillsdale to remain until his health is fully restored.

The Emanuel's congregation had a picnic at Swinney park yesterday and it was attended by a large number from the city and country. The Wayne Tent band discoursed good music during the day and it was a delightful concert, the leading feature of which was "The Indiana War Dance."

The sons of St. George held a picnic on the Lake Durnell farm, four miles southwest of the city yesterday. The party was well supplied with edibles and had dinner and supper in the grove. There were various amusements, not the least of which were the games rendered by Messrs. John Sisler, William Hanke and Joseph Sisler. A racket came between the married and the single members of the order, the latter walked in victory for the benefactor

STAR POINTER

Wins an Easy Victory Over John R. Gentry.

The Largest Crowd That Ever Saw a Race at Classic Chester Park Track.

HOOKSTON, Ohio., July 6.—The largest crowd that ever assembled at Chester Park park and the largest attendance at any light harness racing event in New England was present on the opening day of the program of five events, five heats. Estimates place the attendance at from 25,000 to 30,000.

It was generally conceded by horsemen that record breaking time was impossible, owing to the rain storm which the opening day brought in its wake. The chief feature of the card was the free for all pace, in which Star Pointer, John R. Gentry and Frank Agan contended. It was hoped that the two minute mark would be threatened. But Gentry was killed in his effort to beat Star Pointer's record, and it was plainly evident that instead of being pushed McCarty held back Star Pointer in both heats, as Gentry could not force him and Frank Agan was several lengths in the rear.

In the Gentry trust against the hitch only two events will be contested by a runner from the Texas horse stables, known by Noble, sons narrow:

Free for all pace, purse $6,000; two-twentieths; best two out of three heats; to-day.

Mc Carty, b. h. by Brown Hal b. Bonnie, 2. 2., Frank Agan, b. g. Spears, 3. 3. Time—0:34½, 1:08½, 1:33½, 2:06½, 0:33½, 1:07, 1:34, 2:08½.

2:12 trot, purse, $1,000—Grace Hastings won; Maple Valley, Fred Kohl, Cephas. Time, 2:12½, 2:12½, 2:13½.

2:20 pace, purse, $2,000—Forest Herr won; Sidewroth, Penland Kannette, Ed. B. Young, B. C. Kitty Van, Sister Dean, Bells G. Time, 2:14½, 2:13½, 2:12½.

2:30 trot, purse, $1,000—Pastoral won; Cycle, Dapple, Dreme. Time, 2:17½, 2:16½, 2:17½, 2:16½.

NOTES.

DENOUNCES TRUSTS.

Indianapolis Conference to Out Such Combines.

INDIANAPOLIS, July 6.—Independence Day was celebrated here in the old fashioned way, there being drills for the militia, speeches and the reading of the declaration of independence. Governor Mount made the principal address of the day at Garfield park, devoting considerable time to the burdens placed upon the people by corporations and trusts. In part he said:

"Corporate greed secures from the people valuable franchises that abuse the privileges and betrays the trust thus secured. The plants, water plants, street railways and numerous other corporations, inflate their stock, show large capitalization and upon this watered stock demand the right to make unjust charges in order to secure fair returns on the capital. They have one value upon which to earn profits, but a far different value upon which to be taxed."

AMERICAN WOMAN BEATEN

Her White Slave Soldiers Indignities at Mazatlan.

VANCOUVER, B. C., July 6.—The latest mail advices from Honolulu say that Miss Nellie West, an American woman, was severely beaten by the Japanese matron from the warship Naniwa recently, while trying to land at Mazatlan, who had been set upon by a number of men from the Japanese navy. She was confined to her bed next morning and unable to appear against her assailants in court, where they were charged with assault and battery. Miss West's brown hair knocked down three sailors on the street the following morning in consequence, while American blue jackets went hunting for the ringleaders of the Japanese who made the assault. One who was pointed out to them was quickly seized by them that he left none the worse on the result of an operation.

Heats at Grand Rapids and Other Races.

Dear, Ind., July 6.—The pacing part of a large crop of grain in this country is exceptionally good. Farmers have begun harvesting wheat, and it is thought that acres which yielded only ten bushels last year are good for thirty bushels this year. The hay crop has been a big one, and during the last few days rains have been the greatest.

The front crop in Miami county will be poor, as peaches and pears are scarce and there will be only a fair crop of apples.

MANY OF THEM.

Chapter of Accidents, Serious and Trivial.

Heavy Fight Over Hot Box Bears a Commission from Preventing Several Prostrations at Robinson Park.

The accident column is fourfold today in events grazing out of the celebration of the glorious Fourth. Among the great masses of people gathered for a day's holiday it is to be expected that there would be unfortunates, and it is to be wondered at that the list is not longer than it really is. The chapter is as follows:

The young son of Robert Gribbons, of Taylor and Clinton streets, was one of a party of youngsters who went out to the Wabash railroad river bridge to swim last evening, and after a time he began to get alive in the to the bottom out of a little eight year old companion named Miller. Gribbons had entered deep water when he was taken with cramps, which rendered him powerless to escape from his perilous situation. He had sunk twice to the bottom and succeeded in getting him to the bank. It was a heroic act and one that few lads so young in years would have attempted.

Mrs. La Rocke, of 21 Pritchard street, while riding a bicycle this morning, collided with Engineer Bill Bowers, in front of Dellaire's establishment. The lady was knocked from the wheel and received a gash in the forehead. Dr. Barnett dressed the wound.

John Ash, farmer of Perry township, drove into the city yesterday behind a spirited horse. He was returning home about a o'clock, and as he was driving across the Spy Run avenue bridge, someone threw a large firecracker, the explosion of which frightened the horse and the animal ran away. It was not long in coming to a dead halt on the ground and was stunned by the fall. He was taken to hope hospital, and Dr. J. H. Koppel was called in to attend him. A long gash was cut in his head and the right arm was badly lacerated.

Henry Fehling, a young man residing on the Peters farm, in Aboite township, fell from a load of hay on West Main street yesterday and received a severe gash in the head.

A little daughter of Henry Reinwald, in running to get away from a runaway firecracker, yesterday fell and broke her right arm at the elbow. Dr. George B. Stevens reduced the fracture.

Ten year old Charlie Franks, of 67 Bartholdt street, loaded into a toy cannon. It exploded and his face was terribly burned and torn by the blow.

A son of John Kain, of South Lafayette street, got too near a large cannon firecracker and was raised several feet off the ground. He will cut his nose standing for a week or two.

The heat and the excitement at Robison park yesterday proved at Mrs. Ellen Shea. She was placed on a car and brought to the city. The patrol wagon was called and the woman was taken from the corner of Main and Calhoun streets to her home, at the corner of Clinton and Wilman streets.

Mrs. Shea is old, and he possessed the woman as being in a dangerous condition. After she was gotten into her bed and gained some rest she rallied. She will recover.

Mrs. Hart, whose home is on Pearl street was overcome while dancing, and for a time it was thought that she would not be taken out of the park alive. She was learned from the pavilion to the carstation, from where she was taken to the city. She was removed to her home, where she revived in a short time.

Miss Maude Eggeman, of Pontiac street, was overcome by the heat while dancing at Robison park last evening and fell in a faint on the ground. She was brought to the city on a car and taken to her home on Pontiac street. Dr. Ballard, after working an hour he succeeded in restoring consciousness. Miss Eggeman will recover.

John Becker, a driver for Critchfield Bros., suffered a sunstroke while on his wagon yesterday afternoon. He was taken to his home on Lafayette avenue, in a vehicle conveyance. He is somewhat improved.

Miss Allie Miller, of West Main street, was overcome by heat at Swinney park last evening, and fell unconscious on the sidewalk. She was taken home and a physician's services secured. She is resting easy.

Miss Edith Shumacher, of 293 West Main street, was overcome by the heat and excitement shortly before fireworks and remained in a somewhat confused condition for some time. Dr. Schroeder also happened to be present, attended the young lady and soon pronounced her out of danger.

DIVED AND DIED.

Fatal Plunge of Hans Riedhof at Robison Park.

Went Down in Nine Feet of Water and Not Rescued by Means of Pump and the Fire Rolled Hose.

A shadow fell upon the merry-making at Robison park last evening by the untimely death of a fourth named Hans Riedhof, who while diving from the spring board at the park bath house struck his head upon a stump in the bottom, and was killed instantly. Young Hans was a good swimmer, having frequently enjoyed the sport at the high bank near his home. He had gone down to the middle of the pool where he undertook a high dive off the wooden frame work above the float. He went down in nine feet of water but his companions waited in vain for his appearance. Being certain that he had gotten to the bottom of the water barbers began a search, and in about fifteen minutes Joshua Tyler, of Sharrow avenue, an expert diver, brought the body up, and with assistance, carried the body to the shore.

Coroner Kaiser learned the gruesome story at the bath house and had them removed to Schone & Voith's. A second removal was then made to the undertaking parlors of Henry Williams, where Dr. Greenawalt made a careful examination, ascertaining that the skull was fractured and that one of the left ear. The blow which struck it must have caused instant death. The boy's forehead also bore the mark of having come in contact with a hard substance. It is believed that in going down he struck an obstruction which probably been swung into the basin by the current. Manager Phillips states that the utmost care is taken to keep the bathing premises clear of blocks of wood and obstructions of any kind. Several witnesses that young Riedhof came up with the platform and that at this time the one his head may have struck the sharp corner of the timbers. This theory of his death is shared by several more who witnessed the accident.

Hans Riedhof was the seventeen year old son of Mrs. Wilhelmina Riedhof of 30 Cottage avenue, who is a widow. A brother, who is married, and two sisters who live at home, also survive him. The remains will be taken to the stricken home this evening.

A GOOD MATCH.

Shooting Contest to the European Gun Club.

Fifteen Sportsmen Took Part and Some Good Scores Were Made—Success of the Two Events.

The European Gun club gave an interesting shooting contest at their range, north of the Lakeside Park park, yesterday afternoon. The two events passed off smoothly and some very good scores were made. About fifteen sportsmen took part, among them being Mr. Miller, of Monroeville, William Wurtz, of the Electric Gun club, acted as referee and gave universal satisfaction. Following is a score of the high guns in each event:

Event No. 1—Ten Blue-rocks—Fahnestock, first; Jim Bowers and Knothe, second; Weatherhogg, third.

Event No. 2—Eleven Live Birds—Knothe, first; Kreiter, second; Miller, Jones and Meluh, third.

Event No. 3—Ten Blue-rocks—Fahnestock, first; Miller and Short, second; Melhe, third.

Event No. 4—Fifteen Blue-rocks—Miller, first; Short, second; Fahnestock, third.

Event No. 5—Fifteen Blue-rocks—Miller, first; Fahnestock, second; Jones, third.

Event No. 6—Ten Blue-rocks—Melsh, first; Short, second; Fahnestock, third.

Event No. 7—Ten Blue-rocks—Jones, first; Miller and Melsh, second; George Bowser, third.

Event No. 8—Ten Blue-rocks—Jones, first; Miller and Melsh, second; George Bowser, third.

Event No. 9—Ten Blue-rocks—Jones, first; Short, second; Knothe, third.

Event No. 10—Ten Blue-rocks—Jones, first; Short, second; Knothe, third.

No Fourth of July Arrests, the First Time in Years.

Police Reserve Satisfaction at Several Thefts, Many Unarrested, a Farm Laborer Under Suspicion.

For the first time in the history of many Fourth of July celebrations in Fort Wayne no arrests were made by the police yesterday and there was consequently no police court this morning. The robbers who were confined at Robison park, the majority of people went there. No intoxicating drinks are sold on the grounds, which accounts for the harmony that prevailed throughout the day. No fights or disturbances were reported as having occurred at the several parties held in various grooves and parks.

MACHINERY HERE.

Construction Apparatus for the New Court House.

Two Locomotive Cranes This Morning and All Were Will be Ready for a Few Days—Ready for the Contractors.

Contractors James Stewart & Co., received two car loads of derricks and construction material from St. Louis this morning. Six more car loads will arrive within a few days. Part of this machinery is to be used at the stone yards, which the contractors will establish along the Wabash tracks near Fairfield avenue, and where all the rough stone will be cut before it is sent to the court house. The rest of the machinery, consisting of derricks and engines, will be used on the court house ground.

Mr. Stewart stated to a SENTINEL reporter this afternoon that the work of putting in the concrete for the foundation will be commenced as soon as the stone is ready, and from that time on the court house will assume shape. The excavation is almost completed. That contract will be a loss of several hundred dollars to Messrs. Randall and Remy, who hold it. All future work on the building will be paid for by the day, and will not be sublet by Stewart & Co.

HIS LAST BIRTHDAY.

Conrad Gerber Dies While Celebrating It.

In the Midst of His Festivities He Succumbs, with Fatal Results—Death of Mrs. Conrad Ring—Other Deaths.

Conrad Gerber, an old resident, while celebrating his fifty-first birthday anniversary yesterday, was overcome with heat and died in the midst of his guests. He had been in poor health of late, but was feeling better yesterday morning. While talking to those assembled about him he fell back in his chair and before medical aid could be summoned he was dead. He was a native of Germany and had lived in Fort Wayne for forty years.

Mrs. Emma Ring, the wife of Albert R. Ring, died last night of lung trouble. Her age was twenty-nine years and eleven months. Her husband is the well known clerk of the Lake Shore and Michigan Southern railroad here, residing at 32 East Fifth street.

The funeral of Mrs. Mary Doyle was held from the Cathedral this morning.

The funeral of Frederick Meyer will be held tomorrow morning from St. Michael's church in Bonghton.

Assistance to the Philadelphia fire—The board now on hand at the White house and the leading departments. Five applications for office each morning in long array—reduced at one p.m. of each day. Three hundred over 100,000 republicans voted. It pains to vote for McKinley for a second term.

This is a great country. All is not lost. There was snow in Leadville last night, a hundred degrees and more by the city thermometer, with source doubtful from sunstroke, in transactions in the central Mississippi valley and in the upper lake region, near Duluth, a tremendous rain storm or whipping. There was further loss of the first damage to property.

The wheatfields of Northern Indiana present a magnificent appearance. The heads are exceptionally large and the berry is exceedingly plump and solid. The crop will be one of the best harvested for years. Harvesting has commenced and is being pushed vigorously. With anything like fair prices, the farmers of Northern Indiana will be quite well fixed within a short time.

A new mystery is opened by the presence of rodeo at Hagerstown. A constable who attempted to eject a woman in default for rent was chased from the premises by the irate female who was throwing boiling water at him. But the constable was badly scalded with cheap molasses and his pleasantness has left him. Let the threatened get some one to chase them with boiling water and he will be free from trouble.

John Adams, speaking of Independence Day, said many years ago: "I am fain to believe that it will be celebrated by succeeding generations as the great anniversary festival. It ought to be commemorated as the day of deliverance by solemn acts of devotion to God Almighty. It ought to be solemnized with pomp and parade, with shows, games, sports, bonfires and illuminations, from one end of the continent to the other, from this time forward for evermore."

The promised anti-trust provision of the tariff bill has been dropped by the senatorial tariff tinkers for the reason that, after consultation with Senators Hanna, Chandler and others it was concluded that it would be extremely difficult to secure legislation that would be effective and that upon the whole it was impolitic and unwise to undertake it. This is interesting and amusing, though politically speaking, disingenuous. That it is extremely difficult to secure effective legislation against trusts has been proved by experience, though the decision of the supreme court in the case of the Texas Missouri Traffic association is to the effect that it is possible. But as the principal object of the pending tariff bill is to promote trusts it would certainly be impolitic to embarrass its operations by incorporating features antagonistic to its aim.

In a recent decision by Justice Gantt of the supreme court of Missouri, he holds that the salvation army or other unincorporated organizations in order to take advantage of homesteads for them must be incorporated, otherwise they can in a contest dispute, no matter on what terms the property may be left them. Incorporation is necessary that the beneficiary of the trust may be certain, or capable of being rendered certain, or, in other words, so that the courts may be sure that the property bequeathed goes to the use and enjoyment of the association for which it was intended.

The Good Old Fourth.

We hear much of the "old fashioned Fourth," and many are the remarks expressed that the occasion is not celebrated now as it was in the good old times, when some one every man was a patriot and every boy wanted to be one. In the good old celebrations orations, enthusiastic speeches on the glories of the country—speeches in which the eagle was allowed to soar—readings of the declaration of independence, big dinners and games constituted the programme. The people were highly pleased, and the day was celebrated and looked forward to as the great event of the whole year. But times have changed since then, and the Fourth of July is less demonstrative here of patriotism, although more noisy. Nowadays an old fashioned Fourth of July celebration would draw few people of the citizen, unless something extraordinary could be presented as an attraction. In the old days the celebrations were happy occasions, a meeting time for the people from miles around. They were a reunion, and a glorious one, from which the people have grown. Although patriotism permeated every feature of the old Fourth of July, the idea of entertainment was also partially responsible for the unusual interest manifested in them. It was as the public appetite for entertainment began to increase, interest in the old form of performances decreased. The patriotism did not wane—it still lives—but it takes more now to arouse it than formerly. As a people who have become more used to independence, the blessings enjoyed by the yoke once worn have healed and we are not so much disposed to grow enthusiastically patriotic at the recitation of the glorious deeds of the forefathers. There are indications now that the healthier and more stable patriotism is being born; it would be unpleasant to believe that there is any deterioration. The patriotism now is no less veritable—it is more as a great deal of it now but has its power in a devoted and united love of country. The idea that patriotism is dependent on hostility to foreign countries is wearing away. The struggle for independence is looked upon by all as the greatest event in the nation's history, making it possible for the country to become the greatest and the cleanest of the whole world. The veneration and gratitude for what has been done finds its expression in a spirit intensely American, yet not hostile or unfriendly to others, which last the whole year. The upbuilding of the republic, the devotion to its institutions, the interest taken in its affairs, all bespeak a patriotism as grand as that found expressed in the good old days. The memories revered by the Fourth have not been dimmed, they are as dear as they ever were, for all that is contained in the speech or celebration was the legitimate of the nation's life and that life is our strength and hope. There has been no falling off in American patriotism, although there may have come a different method of showing it, yet who shall say the old way was the better?—Lafayette Courier.

COMMON SENSE CURE.

Pyramid Pile Cure Cures Piles Permanently by Curing the Cause.

Remarkable Remedy Which is Bringing Comfort to Thousands of Sufferers.

Probably half the people who see the advertisements of Pyramid Pile Cure think it is a patent medicine. People have so often been deceived in such remedies that immediate relief is not believed. The common sense of applying the cure to the seat of the trouble is apparent to any one. Pyramid Pile Cure is not a patent medicine nor a secret remedy. Its ingredients are known to the medical profession as the most successful in the treatment of piles. Pyramid Pile Cure is prepared in suppository form for convenient and painless application. It acts directly on the parts affected, absorbing the tumors, allaying the itching at once, and effecting a permanent cure in a short time. It is the only remedy that will do it. Pyramid Pile Cure is for sale by druggists at 50 cents a package.

If you have the slightest symptoms of piles, send at once for a free sample and pamphlet. Address, Pyramid Drug Co., Albion, Mich.

WON THEM BOTH.

Fort Wayne Won Two Games From Stroothers' Misfits.

Danville	16	30	.348

Gus Strothers did not keep his word with the Fort Wayne public, but appeared at Lakeside park yesterday with only five men to play two games. The team was filled in with Collars, McDaniels and Kennell, amateurs, in the morning and Ely O'Meara was loaned to the visitors to catch. In the afternoon Monahan played center, McDaniel first, Collars short stop, and Wellman one of the Warsaw school boys in left field. Of course, caught. Both games, of course, were easy victories for Fort Wayne, although in the morning with a good man, O'Meara, behind the bat, Ely pitched a great game. Strothers ought to be punished in some manner for ruffling the regular base ball team in Fort Wayne. It is known that had he had his players present they could have brought to the city a fairly good club and not appeared with the misfits that represented Mansfield. The first game, the 9 to 1, was a regular and assisted in keeping the attendance yesterday down to less than one when it should have been 2,500. The league, however, will have to lose the loss, as there is a rule which compels all the clubs to play the entire holiday receipts at a park and divide them equally between the eight teams. The Strothers will not live to readers by discussing the games, but submits the following scores without comment:

OTHER INTER STATE GAMES.

Toledo, Ohio, July 6.—Timely batting and sharp fielding won the morning game for New Castle. The locals could do practically nothing with Hickman. In the afternoon the Toledos won the brilliant fielding and batted two bigger by Hickman in the fifth inning, after two were out. A brilliant double play by Hassaman and Meyers in the ninth inning saved the victory to the afternoon. Attendance at both games, 1,000. Score of the first game:

Toledo	0	0	0	0	0	0	0	0	0—0
New Castle	2	0	0	0	2	0	0	0	0—4

Base hits—Toledo, 5; New Castle, 11. Errors—Toledo, 2; New Castle, 1. Batteries—For Toledo, Keth and Arthurs; for New Castle, Hickman and Donovan. Umpire—Nichols.

Afternoon game:

Toledo	0	0	0	0	2	0	0	0	1—3
New Castle	0	0	1	0	0	0	0	0	2—3

Base hits—Toledo, 6; New Castle, 7. Errors—New Castle, 1. Batteries—Keenan and Arthur; Hewitt and Griffith.

Dayton, Ohio, July 6.—Dayton won the morning game from Youngstown easily. The visitors were unable to hit Rosenbaugh's curves. The score:

Dayton	0	0	0	0	0	0	0	0	1—1
Youngstown	0	0	0	0	0	0	0	0	0—0

Base hits—Youngstown, 5; Dayton, 12. Errors—Youngstown, 1; Dayton, 1. Batteries—For Youngstown, Hecht and Zearns; for Dayton, Rosenbaugh and Wiesel.

Youngstown shut out Dayton in the afternoon with the same batteries the visitors had in the morning game. The score:

Youngstown	1	0	0	0	0	0	2	0	0—3
Dayton	0	0	0	0	0	0	0	0	0—0

Base hits—Youngstown, 7; Youngstown, 5. Errors—Dayton, 2. Batteries—Hecht and Zearns; Rosenbaugh and Wiesel.

Springfield, Ohio, July 6.—In the first game each Wheeling pitcher struck out. Score:

Springfield	0	0	0	2	1	0	0	1	0—4
Wheeling	1	0	0	0	0	0	0	0	0—1

Base hits—Springfield, 10; Wheeling, 4. Errors—Springfield, 1; Wheeling, 1. Batteries—For Springfield, Dowd and Stivers; for Wheeling, Hilliard and Mozett. Umpire—Keefe.

Second game:

Springfield	0	0	0	2	1	0	0	0	2—5
Wheeling	1	0	0	3	0	1	2	0	0—7

Base hits—Springfield, 10; Wheeling, 12. Errors—Springfield, 2; Wheeling, 2. Batteries—For Springfield, Treadwell and Stivers; for Wheeling, Campbell, Risley and Mozett. Umpire—Keefe.

SECOND DAY.

Western Association—Burlington, 5; St. Joseph, 4. Cedar Rapids, 7; Peoria, 1. Des Moines, 6, Quincy, 3. Des Moines, 7; Quincy, 5. Rock Island, 8; Dubuque, 6.

Michigan State League—Jackson, 15; Port Huron, 2. Jackson, 6; Port Huron, 8. Bay City, 16; Lansing, 6. Bay City, 11; Lansing, 15. Kalamazoo, 9; Saginaw, 8. Kalamazoo, 5; Saginaw, 14.

NOTES.

McIntyer has played fine ball for Mansfield.

The Shamrocks play at Lewisburg near Thursday.

The Cincinnati Reds play the Daytons tomorrow.

Fly, a new man, is playing third base for New Castle, while Rose, who was injured, is off duty.

The Inter State race is indeed a pretty one. Three games might put Fort Wayne in third place.

Mansfield has signed Pitcher Watkins, a south paw, who has been pitching for the Michigan university team.

All the clubs in the Inter State league split even on yesterday's games except Fort Wayne and Mansfield.

The base ball club of Zion's Wall that league defeated the St. Paul's club by a score of 104 to 1 in a ten inning game yesterday.

Lynch and Robinson reported too late for yesterday's game. Lynch has an offer from Springfield and Robinson wants to go to Dayton.

Hickman a good right arm was again yesterday. He usually a wonder and will until the first game against Fort Wayne next Thursday.

New Castle comes Thursday for four games and Herr should be a big attendance at each game to pecuniarily Proudest Mover for his fourth of July losses.

George Stallings and Bob Allen have changed places. Stallings will assume his old position as manager of the Detroit club and Allen will go back to the scene of his first success—Philadelphia.

In the Eastern park league the Ogontz Kings and Kensingtons are at the top of the heap each team having won four per cent. The Shamrocks, Manheims, Riffles and Blues follow in the above order.

Few public men are more enthusiastic over baseball than Assistant Secretary of the State William B. Day. Away back in the early 70s, the latter covered first base for the University of Michigan team and still carries a couple of crooked fingers as a result.

Warsaw Times: If the proper financial assistance can be secured the Warsaw ball club can now have the services of two first-class minor league players—John Welch, a fine catcher, and William Heller, a good all around man. Those men played with the team at Goshen and did good work.

Boston Herald: New Bedford's new pitcher, Guy M. Johnson, of Millersville, Mich., now Grand Rapids, left by boat last night for his destination. He was released by the New Castle, Pa., team, and before that pitched for Kalamazoo college. He packs high for young Hackman the New Castle pitcher and declares him fast enough for the big league."

Mr. J. K. Burns, of Mansfield, arrived in Fort Wayne this morning and is trying to straighten affairs out for the team. He says this is an entirely new experience for Mansfield, but does not blame Stroathers except that he did not release Carroll and Morgan two weeks ago. Mr. Burns asserts that Mansfield will be in until Carroll and will immediately begin to reorganize.

Two thousand people witnessed the Rifle-Bliss game at Lakeside park yesterday afternoon. The Bliss were easy for the Rifles, being defeated by a score of 18 to 3. Fritz, who was in the box for the Bliss, pitched good ball, but was given very poor support. Green did the batting for the Rifles, and had his opponents going in great style. He received good support. Both teams were also on the bases, Link Bidinger of Evansville umpired the game, and made a great hit with the audience.

Dan Whistler has taken charge of the racing field team. As Manager Hoyt will be business manager. He made a strong effort to get Grafius, but Manager Lamoreux refused to release him at the last moment, fearing it would weaken his team. Hemphill will probably not be signed as he jumped to Dayton team, early in the season without being released and is now playing with an independent team at Saginaw. Mich. Dayton is now anxious to secure him. Cavanaugh, a new man, is playing short stop and the pitchers are Tacke, Treadwell, Poole and Coggswell.

The Keystones defeated the Shamrocks at Robison park cricket last evening. Both teams were sanguine of packing the game, and played hard to win until the last man was out. Quinn, who was in your form, started to pitch for the Shamrocks. After six Keystones crossed the rubber in the first inning. Quinn was sent to the stable, and Palmer faced the Keystones the remainder of the game. Bliss was in the box for the Keystones. The Keystones connected safely with the ball fourteen times, while the Shamrocks sent the pig skin into safe territory twelve times. In point of work in the field were the same for the Keystones. Score: Keystones, 17; Shamrocks, 12.

Among the guests at the Warsaw: H. Mork, Cleveland; C. M. Thurber, 86 Lenke; Ben Lindall, Peoria, Ill.; Mr. Cone, Garden City, Kansas; Joe Finkelman, Indianapolis; H. M. and W. O. Dunbrooke, Salt Lake City; W. H. McIntyer, Auburn.

"Mother's Friend"

prepares the system for the change taking place, assists Nature to make child birth easy, and leaves her in a condition more favorable to speedy recovery. It greatly diminishes the danger to life of both mother and child.

The sweetness of the face embraces all the graces of the charm of Advent Nugget, a man's mind. It is a pity that the sweet memory should ever be interrupted by the taint of ill health and consequent unhappiness. This need not be. The flower of a happy remembrance should be crowned and kept at the maximum weeks of sickness and sorrow.

quently this is the case. A woman can not be a happy, helpful mistress who suffers from weakness and diseases of the very meaningness of her nature. This may grow up to take its place, but how much wisdom survives where love is the case. If a woman will, the man always hold her place in a man's mind and heart. If she will take the right care of herself in a womanly way she will never lose her rightful inheritance, a husband's love.

The best of all known medicines for women is Dr. Pierce's Favorite Prescription. It acts directly on the important and delicate organs peculiar to the sex, invigorating and promotes healthful functions, dries weakness, and cures the most obstinate cases. A GOOD RUN.

A Pennsylvania Stock Train Travels at Remarkable Speed

The Responsibilities of Railway Enginemen.
History of Wonderful Electric Machinery.
All About the Shops and Repairs.

A remarkable freight run was made on the west end of the Pittsburg road last night, when the weight of the train as taken into consideration. The train consisted of twenty-eight cars, all loaded with cattle bound for the seaboard. Lewis Lewis, in charge of Conductor Lewis Miller and hauled by class G engine No. 179, with J. C. Dawson at the throttle and John McIntyre as fireman. It covered the distance between Fifty-fifth street, Chicago, and the east yards in this city, 148 miles, in six hours and fifteen minutes, including a detention of one hour and fifteen minutes, making the actual running time only five hours. The forty-one miles between Warsaw and the east yards were covered in one hour and twenty minutes, a good record for a heavy train.

A NEW ELECTRIC PLANT.

The Electric corporation this morning sent the machinery for equipping a plant to Madison, Ind., where the firm has a contract of considerable magnitude. Included in the shipment were two eighty-light arc and one 1,000 light alternating incandescent dynamos, 125 street lamps and all the necessary instruments and station equipment material.

FATAL THIRD ACCIDENT.

A man employed in one of the railway offices in Washington has for years been collecting newspaper accounts of railway accidents of all kinds. He now has thousands of these narratives, and from an attentive study of them he has come to the conclusion that no locomotive engineer ever runs a mile out of his chief character. This is all a mistake, of course, but there may be a basis of truth in the circulation.

It seems that this belief is widely held by engineers themselves, and the makers of the scrapbook asserts that it is so well supported by experience as to be almost as demonstrable as the law of gravitation or any other natural regulation. He does not insist that engineers are never killed in their first or second accident, but he does maintain with great seriousness that the man who has had two "close calls" will, if he is not himself a fool, have a care, a prudence should have arisen, for the chances that an engineer will three times survive the perils of collisions and derailments, greater few than for anyone else on a train, are manifestly close to the vanishing point. To suppose that his danger is greater in the third than in the first wreck is, of course, merely another form of the delusion that luck is bound to change.

THEY HANDLE BILLIONS.

The auditing department of the great American railroad corporation retain in respect of its records and transactions a governmental department. The earnings of all the lines of the Pennsylvania railroad system in a year average about $130,000,000 and the gross earnings of the Vanderbilt system amount to rather more—$125,000,000 from the New York Central, $21,000,000 from the Lake Shore, $10,000,000 from the West Shore and Nickel Plate, $15,000,000 from the Chicago and North west, $13,000,000 from the Michigan Central and about $15,000,000 from the collateral lines or systems. These figures are large, but they appear still larger when they are compared with items of federal revenue. The total receipts of the United States government from customs during the fiscal year ending in June were $160,000,000, and from internal revenue taxes $140,000,000. The two together make up $296,000,000 of public revenue for the government of the affairs of a nation of 70,000,000 inhabitants, but the two railroad systems referred to represent together investment of $775,000,000, and if a third big railroad system was added, the receipts of the federal government would be exceeded.

NEW AT HESTON.

The Haskell & Barker car works are building six hundred cars for the Chicago and Eastern Illinois.

For the first time since the Columbian exposition every Pullman and Wagner sleeping car is now in use.

Charles Grosser, of the Bass offices, is entertaining his brother-in-law, James McConnaughe, of Chicago.

In the year ending June 30 the Pennsylvania handled on its lines 7,110,479 tons of coal and 2,251,215 tons of coke.

Joseph Doser, foreman of the upholstering room at the Pittsburg shops, is off duty on account of the death of his aunt.

Charles Bitcher, who has been laid up with a lame back for a week, was able to resume his work in the Bass blacksmith shop this morning.

The Chicago freight handlers of the Panhandle lines have struck for more pay, and their places are being filled by employes at points along the line.

Negotiations are pending which will probably result in the Delaware, Lackawana and Western securing control of the Northern railroad of New Jersey.

The Wabash has ordered built at Huron shops five parlor cars and from each of the divisions on the lines west of Pittsburg are to report to and be interviewed by General Manager Loree upon the subject in question.

Two brothers named Robinson, employees of the Ohio Wagon works, were victims of old Sol's intense rays. One was overcome he fell last Saturday and the other succumbed Sunday, but neither was seriously affected.

On July 1st the Southern Railway organized three new divisions, making twelve divisions in all. These divisions are named after some city in each division instead of by numbers as heretofore. No changes in personnel will result from the new arrangement.

Mrs. B. D. Wyer, wife of the Pittsburg shopman, was summoned to Delphos, Ohio, yesterday by a telegram which stated that her mother was dangerously ill and not expected to recover. Mrs. Wyer's father died a few weeks ago and since his demise his widow has declined very rapidly.

The Panhandle has sixty class E freight engines in the division between Columbus and Pittsburg, and no heavy has been laid since that for two weeks these engines have been in constant service, as soon as arriving at one end of a division being turned around with another crew and sent out.

Adolph Frohmuth, of Chicago, and Fred Frohmuth, of Munich, were the guests of relatives in this city over the Fourth. Both gentlemen formerly resided here. Adolph, who is a machinist by trade, is now engaged in the restaurant business on the Wabash, while Fred is still following his old vocation, that of a wheelmaker.

J. H. McCormick, ticket agent for the Big Four in Anderson, has been notified to report in Louisville to-morrow to take charge of the company's office there. Mr. McCormick has been in charge of the office in Anderson for two years, having been promoted to the position from Lafayette. The new appointment pays a salary of $100 per month.

Three men were discharged by the Pennsylvania at Bradford, Ohio, yesterday for buying coal that had been stolen from the company's cars. The employes discharged did not steal the coal, but bought it from persons supposed to have stolen it. The company has been heavily by reason of the coal thieves at Bradford, and is taking means to cause their apprehension.

Robert Coon, foreman of the Bass car wheel foundry, has had an additional fan put in operation for the benefit of the furnace men, whose work is of the hottest character. The force has also been increased from five to nine so they can relieve each other every few minutes. By this means the men have been able to endure the heat of the day without any suffering from the heat.

The True Remedy.

W. M. Regine, editor Thatcher, Ill., Chief, says: "We would recommend Boschee's German Syrup. Dissolves for Consumption, Coughs and Colds. Experimented with many others, but never got the true remedy until we used Boschee's German Syrup. Other remedy can take its place in our home, as in it we have a certain cure for Coughs, Colds, Throat and Lung trouble, etc." It is also a experiment with other remedies, even if they are urged on you as just as good as Dr. King's New Discovery. They are not as good, because this remedy has a record of cures and besides is guaranteed. It never fails to satisfy. Trial bottles free at Dreier & Bro.'s Drug Store.

INDIAN JUGGLERS.

American Aborigines Who Rival the Magicians in the Black Art.

The Kickapoo Indians, who occupy a reservation in the northwestern corner of the state of Wisconsin, made equal the most Indians in the art of juggling. The Kickapoo rock, which is part of their necessary equipment, is not entirely useless as to deserve a ticket.

The performer holds before him a red flannel bag, which measures about 18 inches in width by 24 in depth. The top is open, and the bag is held open by the hands of two assistants. Into the bag is placed a good sized live dog, like a dog of about 40 pounds. Then, taking the bag in his hands, he rolls it into a ball to show that he was passing it within. Again taking the bag by the upper corners the performer holds it before his face like a banner and slowly turns around, showing that the dog has not escaped in that direction. Suddenly starting with the performer and making gestures before the bag as though he would shake, loses began to emerge from the top of the bag, gradually working their

bodies further and further from the bag until they were about half way out, when the heads appeared into the bag, the man shaking and shaking the monstrous bag until they disappeared entirely. The snakes continued to emerge and disappear at the will of the performer who finally pulled up the bag, snakes and all, and put it in his corner.

The explanation of the trick rumored in the commencement of the bag between the persons held by the thumb and forefinger with a string of cloth or tape, to the middle of which was attached the tails of the stuffed snakes. These tails were about a quarter inches long and as the two ends of the tape were lowered or tightened the weight of the snakes below pulled them up or down the tape inside. The bag is shown to be the loose corner of the garment.

Coyote Farming in California.

In many portions of California the coyote is a troublesome pest and there have been efforts to exterminate them. Though it is a species of the dog family, it baffles the powerful enemies, and the state has for several years expended a large sum annually for the destruction of coyotes, but the number has not decreased. Recent investigations show that regular coyote farms are now established, and the business is said to be a thriving business that their owners are much interested. It was the case of a legislator who was in favor of the bounty, but he changed his mind when he found that coyotes were being raised on farms for the bounty. He was informed in a meeting by some that there was a coyote farm in Pasadena, in which it was said four or five hundred coyotes were raised. A certain man also that some of the coyotes were the finest of foxes and wolves. The best officials never have the opportunity of these animals, the question was an easy matter, for they say there is a strong demand there for both of these.

A Good Horse.

Jumbo, a horse owned by a Savin Rock shoeblacker, is said to be the largest horse up to date owned. He is nearly 7 feet high and weighs 1,500 pounds. He is a powerful animal and has dragged, with apparent ease, a two ton load. With the children he is a great favorite. It costs a good deal to feed him, as he has to get packs of oats every week. He makes away with 200 pounds of hay every week. His shoes are of two-inch size and weigh four pounds each.—Boston Herald.

HIRONS' VEGETONE.

It can be Procured at Your Druggists.

Cure Hirons Vegetone Treatment for Catarrh and Hay Fever.

Cure Hirons Vegetone Asthmanol Compound Cure for Asthma, Bronchitis, Pneumonia.

Complete Course of Treatment and Directions Going Treatment.

Vegetone is purely vegetable in its composition. It is a reliable and permanent cure for diseases of the liver and kidneys, consumption, chills, malarial fever, loss of appetite, and a sure and effectual cure for headache and dyspepsia.

Vegetone acts by giving tone to the stomach, strengthening the liver and kidneys, and assists these most important organs in throwing off the impurities in the blood. Every person, in the spring of the year needs a good, safe tonic for the replenishing of the system after a winter of inactivity, and Vegetone will produce the desired effects. Being purely vegetable and a mild, safe tonic for the weak, it is a blessing to the life from the stomach, pealing, ing new vigor.

CATARRH.

One of the most troublesome and dangerous diseases known to mankind, can in the large majority of cases, be permanently cured. Many who were victims to that disease have been cured, and many more are being cured. Inside treatment for Catarrh does the work effectually; clearing it out of the head, driving it out of the blood, where it exists, and ever will exist, unless the health destroying virus is eradicated from the system. Cure it. For it is not only a constant disease itself, but a perpetual source of life. Use the New Asthma and Cough Cure as the blood purifier, and the Speedy Catarrh Cure for the nasal treatment for Catarrh, and soon those troublesome and distressing symptoms will disappear. The constant dropping of the mucous into the throat, and the pain in the head will cease. The hearing, sight, smell, and taste will be restored.

HAY FEVER.

Hay Fever, or Hay Asthma as it is often called, is a combination of Bronchial and Nasal affections. The immediate cause and source of irritation is living or external origin, at this time particularly during the months of May, June and August. The pollen of hay, dried grasses and rag-weed comes in contact with the nasal and bronchial membranes, involving all the air passages, causing immediate irritation, frequently disabling persons afflicted for a month. During the months of August, say nothing of the the loss of life caused by this terrible disease, may be avoided by using Hirons' Double Treatment, which is a sure, safe and permanent cure. Commence using the medicine at once, and get your system in condition to resist the effect of those poisonous spots on the nose membrane, thereby keeping the tissues in a healthy condition.

A Hay-fever Victim Made Happy.

Dr. Hirons Medicine Co., Fort Wayne, Ind.

GENTLEMEN—I have been a sufferer with Hay-Fever in its most malignant form for years. The first attack would appear in June. During August and September My sufferings were intense. Water would run from my eyes and nose, the paroxysms of sneezing were uncontrollable, and I had terrible burning pains in my head. I learned of your Double Treatment for Catarrh and Hay-Fever and procured it at once. After having used three bottles of the remedies I was cured. Thankfully and I leave your valuable medicine, and advise all Hay-Fever sufferers to give it a trial.

Yours truly,

The Hirons Medicine Co., Fort Wayne, Ind.

GENTLEMEN—Your Mr. A. R. Hirons persuaded me to give your Double Treatment for catarrh a trial, and after having used it about 30 days, I can honestly say that the results have been very satisfactory. I have been a sufferer from the disease since childhood, and was so bad at times that the membrane would bleed constantly. By the use of your medicine I have stopped the bleed entirely, the sores are healed, and I have no more difficulty with my breathing.

Yours truly,
CHARLES D. TILLO.

"La Grippe Cough Cured."

Dr. Hirons Medicine Co., Fort Wayne, Ind.

DEAR SIRS—I had a severe case of La Grippe some time ago and suffered with a terrible cough until I tried a bottle of your New Asthma and Cough Cure. I used only one bottle of the medicine and it cured me entirely. I have had no cough since.

Signed,
MRS. CHARLES C. GRAUL.

Testimonial From Ex-Judge of the Superior Court of Allen County.

Hirons Medicine Co., Room 3, Schmitz Block, Fort Wayne, Ind.

Having been a great sufferer from that most distressing disease, asthma, and having used your Asthma Remedy for the last few months, I can certify very cheerfully that it has afforded me great relief, and I feel confident that in the majority of cases, will accomplish a permanent cure.

Respectfully yours,
A. A. CHAPIN.

Believes It Saved Her Life.

Hirons Medicine Co., Fort Wayne, Ind.

GENTLEMEN—I wish to tell you how thankful we are for the great good your medicine has done for our daughter. Mrs. John Metcalf. We sincerely believe that it saved her life. In November she had a bad case of La Grippe, and her health was in a sad condition. Our family physician informed her husband that she was threatened with consumption. We knew not what course to pursue, until one day when Mrs. Metcalf was reading your advertisement in the Weekly Sentinel, she resolved to try a bottle of your new Asthma and Cough Cure. After using the remedy for a short time she was able to sit up in bed. In two weeks she was up and around. Her cough ceased, and now she is entirely cured, and always all who have lung or throat trouble receive your medicine a trial.

Yours Truly,
SAMUEL LOOSE.

MUFFLED WEDDING BELLS.

Where Marriages Take Place Without Solemnization and Without Ceremony.

There are few places and few grades of life in either the rural or the urban world where the word "wedding" is not a synonym for joy and festivity. Only the cynic or the misanthrope protests against the wedding celebration. We wear out most customs, but the wedding feast remains. While very likely not the only place in the world, the only place in my experience where there is any general concealment of proposed consubstantiality and nuptial intent is in the countrines of the south. It may be generally known that Zeb is "keeping company" with Lize; suddenly the town will be appalled at the fact that "Zeb and Lize done got married last night." This coincidence what might be called an anticipated surprise.

Sometimes in the large settlements due notice will be given, and the wedding takes place in the little church or in the building used in common for all public purposes—religious services, school, political gatherings and funerals shown. Usually, however, the ceremony is confined to the elite of the community. In one place in my experience the popular resort for the performance of the ceremony was the broad platform in the rear of a local saw mill. I could discover no ground for the popularity of the spot. Sometimes a few intimate friends would be invited to attend. Sometimes there were no observers save the sun above and the lumber piles around.

Concerning that spot a local magistrate tells an amusing story. A certain task had been unfortunate in the longevity of his selections, had been twice married and twice bereaved. He called upon the magistrate for the third act in the tragedy. As the happy pair took their places before him upon the mill platform to pledge their faith and love he said to the groom: "Move a little farther over this way, John. You up to that line. That is where you stood the second before." And there was no proceeding until John had stood up.

A man who was doing some work for me came to me one day at noon and asked permission to be absent until "quarter to three." I half feared he would be looking to me to fix his necktie for his purpose. He returned promptly on time, to announce in a casual and indifferent manner that during his absence he had been married and, with the little formalities common to all the pair, had settled in a cabin of his own. Again and again have I seen the same plan followed in other cases.

The general fact so general observance of no one I could not discover. It is his wish both the intention of the contracting parties to avoid the consummation. I think it is also in considerable measure to fear of that harrowing performance known as the charivari in the shape of "skivaree." To those unfamiliar with that custom I can only depict it as a noisy and tumultuous demonstration, effected by combinations of pots and pans, horns and howling. It takes the form of an evening serenade to the newly wedded pair. The following mornings even the Fourth of July is not more noisy for miles around. I have been the unfortunate auditor of one of these such performances and if I know that one were to take place around the walls of my dwelling if I married I should choose to "have a back door." I blame no man for retaining his sweet to avoid the experience.—Black Mountain (N. C.) Letter in New York Post.

COL. A. A. POPE

Talks on the Bicycle Manufacturing Business of the Future.

Harrison, July 4, 1897.—Colonel Albert A. Pope, President of the Pope Manufacturing company, was seen today relative to the recent reduction in the price of Columbia bicycles. He was interviewed on the subject.

"Colonel, why have you reduced the price of Columbia bicycles?"

"Because with our present facilities we can make more bicycles than we can sell at $100 each, and I feel a personal responsibility in seeing that our large force of workmen is kept constantly employed."

"Do I understand from that, Colonel, that your output has not been selling?"

"Oh, no; our business is larger than ever before, but our facilities have been steadily increasing. For several years we have been trying to equalize the very best product of bicycle at the very least price, and now we have for the largest plant in the world, with perfected machinery and every facility for doing a very large business, and we believe at these prices we can run our factories full time the year round. If we can, then we shall not be sorry that we have reduced the prices. We have capacity to make 400 high grade bicycles in ten hours, and a thoroughly organized force to man that equipment. We want to keep our men at work the year round. It has never been our policy to weaken our organization when trade falls off, and later bring in a set of new men who must be trained to our standard. If we can bring our product up to the limit we can sell the bicycles at the new prices and make a fair profit."

"Could you make money at the new prices by running the factories half full or half the time?"

"I don't believe we could.

"Colonel, at the new prices could anyone start in the manufacture of bicycles with reasonable prospect of success?"

"I do not believe it possible for any new concern to start in the bicycle business and produce bicycles at the price and of the quality that we are now offering, and ever make any money in the business. The future prospect is likely to be with the large manufacturers of established reputation, with large facilities and large capital, who can avail themselves of every advantage in producing large quantities and manufacturing through the dull season."

Colonel, I have noticed several tabulations which profess to give the cost of making a high grade bicycle, and the total footed to about $90. Is this correct?

"If this is correct, who should so many bicycle manufacturers fail when the prices were very much higher than they are now, and when they netted a great deal more than $30 for wheels not of the higher grade? There are many items to consider besides the actual first cost of materials. No manufacturer knows what the goods cost him until he figures up at the end of the year all the expenses, and many of them have them found that their bicycles have cost them more than twice their estimate.

Colonel, I have seen a number of rumors in the papers to the effect that the Pope Manufacturing Company is about to bring out a chainless bicycle.

"We have been working on a chainless bicycle for several years and have made a good many models. We expect to make it our leading machine for 1898.

"In some of the papers I see that the price of the chainless is likely to be $100.

"You may be sure we won't sell a chainless bicycle for $100."

If any one pays $150 for a Columbia chainless bicycle in 1898, he will get full value for his money.

Will the chainless ever come to make than a chain-driven wheel.

Yes, a great deal more than any other bicycle, and it can only be made a success by the very finest and best workmanship. I think there are only a very few bicycle manufacturers who are likely to make a successful chainless machine.

How many employes are on your pay-roll now, Colonel?

We have had the season as high as 4,000. They have been dropping out the last few weeks, and today we have on the pay roll 2,875.

Is this a greater number than you had at the same time last year?

Yes, by several hundred. I suppose that many people are directly dependent upon these works for support, besides fully as many more who are, to a greater or less degree, supported by us through our agents.

Colonel, will the present range of prices be the standard for 1898?

It is a little early to talk about that now.

Mrs. Pickerell, of 30 East Wayne street, will continue her dress making shop all through the summer. Evening dresses made on short notice and reasonable prices.
